

Thank you for your interest in getting involved in Alaska.

There is no Green Party of United States (GPUS) affiliated state party in Alaska, but there is a group of people who have formed the Aurora Party of Alaska, and they plan to apply for accreditation with GPUS. If you want to be part of this process in Alaska, please contact the Ballot Access Committee so that we can connect you with them. The political party named Green Party of Alaska is not affiliated with the Green Party of the United States.

Currently, petitioning is underway in AK by the campaign teams of the 2024 GP presidential contenders for nomination. You can reach these campaigns through their websites.
