

SECTION 1

TO BE COMPLETED BY CANDIDATE AND RETURNED TO Presidential Campaign Support Committee (PCSC) Co-CHAIRS AT pcsc@gp.org:

THIS SECTION IS PUBLIC INFORMATION (TO BE POSTED ON the GREEN PARTY OF THE U.S. WEBSITE)

Your name: _____ **Jill Stein** _____

1. **CANDIDATE VIDEO:** You are invited to submit a video (of suggested length less than 3 minutes) in which you deliver your core campaign message. This submission is highly recommended but is not required to return this questionnaire.

* ☒ **X** My video is posted at the following URL address:

<https://www.youtube.com/watch?v=2KslxLn7UO0&t=1s>

☐ I will create my video later

☐ I do not plan to submit such a video.

2. **CORE MESSAGE.** Provide a written version of the core message of your campaign. [200 word max]

Today, the need for a political movement for people, planet and peace is off the charts – and the potential to galvanize that movement with a strong progressive presidential campaign is unprecedented. The 2024 election is a symptom of the failing political establishment, with both major parties serving as shameless tools of empire and oligarchy at best, and vehicles of war and fascism at worst.

The American people are done with being thrown under the bus by elites and their bought politicians. Voters are clamoring for choices outside the parties of war and Wall Street. Among the breakaway choices in the race, the Greens are the only people-powered force that has broad access to the ballot and can actually challenge empire.

Unlike our independent allies, we are not a one-shot run, but rather a national scale force that has endured against all odds for decades, while all other national-scale corporate-free parties have been erased or knocked back to single states or cities.

I have decided to seek the Green Party of United States' 2024 nomination for President in these days of unprecedented peril and possibility, in order to put the pro-worker, anti-war, climate emergency agenda front and center in this election.

3. **KEY POSITIONS.** Please list up to five policy points or positions that you would emphasize most consistently if you were speaking as the 2024 GPUS presidential nominee. [250 words max. Please number the points.]

Our Power to the People Plan is a comprehensive platform to build a human-centered society that puts people, planet and peace over profit.

It offers direct answers to the crises of crushing inequality, endless war and climate collapse brought on by both corporate political parties, and it empowers we the people to fix our broken political system and make real the promise of democracy.

We have the power to create an America and a world that works for all of us.

An Economic Bill of Rights for a Just Economy

A Real Green New Deal

Freedom, Equality, and Justice for All

Peace and Global Human Rights

Empower the People for Real Democracy

4.GP PLATFORM. Will you advocate for the platform of the Green Party? If there are any significant platform positions which you cannot support, please state why.

X Yes, I will advocate for the platform

But I have a different position on the following point(s) [100 words max] :

*** 5.COMMUNICATION OF VIEWS. Please provide the URLs for any written materials or videos that demonstrate your ability to speak, debate, or communicate your views. Most helpful are media interviews or public speeches on any topic. [No more than five URL's please.]**

6.ORGANIZING GOALS. What are the principle practical, measurable organizing goals that you would achieve by your 2024 GPUS presidential campaign? Such goals might include achieving ballot access, media coverage, debate participation, volunteer recruitment, fundraising, qualifying for matching funds, staffing levels, Green Party voter registration, endorsements, party building, and/or national vote totals. [120 words]

The principal objectives of my presidential campaign are as follows:

- Establish the Green Party as the political voice of the social movements for peace and justice, including economic, racial and ecological justice.
- Increase the diversity of the Green Party by engaging and activating Green supporters from diverse backgrounds including people of color, immigrants, and the disabled.
- Reinforce the campaigns of congressional, state, and local Green Candidates.
- End 2024 with significantly stronger state and local Green Party organizations.
- Establish the Green Party as the preeminent progressive opposition party to the bipartisan establishment in Washington.
- Make the Green Party the party of choice for young people in America.
- Multiply the Green Party vote totals several-fold over 2020.

7.CAMPAIGN ORGANIZING. How would you envision your campaign organizing to achieve the organizing goals listed in #6 above? [100 words max]

I am committed to doing the serious organizing needed to achieve the goals of my campaign, including intensive fundraising, qualifying for federal matching funds, organizing youth on college campuses, organizing with our frontline communities, obtaining entry into the presidential debates, and running an intense media effort built on my decades of extensive contact with the media representing Green Party's values and policies.

8.PARTY-BUILDING. Presidential campaigns are legally independent entities from the political party whose nomination they received. At the same time, an important objective of the party's presidential efforts is to build Green Party capabilities at all levels. How do you envision your campaign working with the greater Green Party to strengthen the different levels of the Party? [150 words max]

* One of the core goals of our campaign will be achieving ballot access in as many states as possible.

The campaign's national Ballot Access plan is led by our ballot access expert and Field Director. Our staff is in the process of training and organizing over 300 volunteers who have already signed up with our campaign to specifically work with us towards gaining ballot access across the country.

Where plausible, the campaign is pursuing ballot lines for the Green Party, in others a line for the candidate. We are confident that we will expand the Green Party's ballot access over 2020. Through engaging with volunteers with our campaign, the National Green Party can embark on a new wave of grassroots activists to continue our efforts in resisting major parties from marginalizing Green voices.

9. UNIFYING THE PARTY. The GPUS is a diverse party with chapters in urban, suburban and rural communities. It includes native Americans, immigrants, black Americans, and white Americans of many different economic levels. It includes LGBTQIA+ people, straight people, unemployed people, retired people, professionals, union members, business owners and people from many walks of life. What is the vision by which you could be the nominee who receives support from all the diverse members of the Green Party? [120 words max]

Using my experience and contacts from previous campaigns and harnessing the new hunger for a choice outside of the duopoly, I intend to create a powerful professional campaign that will directly engage and unify the many grassroots groups and campaigns both inside the Green Party and outside on the streets.

Our powerful campaign of unity will energize and grow the Green Party membership and inspire Greens and potential Greens to commit their faith and effort to building a future together.

10. DATA SHARING. After the campaign will you share your email lists and donor lists with the Green Party so that your supporters can be contacted to ask for their continuing support for the Party and its candidates?

☒ Yes ☐ No

11. VOTER REGISTRATION. How are you currently registered to vote (party registration, if applicable)? In which state are you registered?

I am registered with the Green-Rainbow Party (GRP), the Massachusetts affiliate of the Green Party of the United States, and officially recognized by the Secretary of the Commonwealth of Massachusetts.

12. HISTORY WITH GREEN PARTY. What specific offices or positions, if any, have you held within the Green Party at either the state or local level? If none,

describe any instances in which you worked in collaboration with Green Party chapters, groups or candidates.

I have been successfully nominated as the Green Party's Presidential candidate in 2012 and 2016, engaging with thousands of Greens, attending state and local meetings, actions, and campaigns, and promoting Green candidates running at every level of public office.

13. OFFICES SOUGHT OR HELD. For what publicly elected offices have you been a candidate or served? On which public boards or commissions have you served at the local, state, or national level?

Besides my 2012 and 2016 Presidential runs and the Green-Rainbow Party's candidate for governor of Massachusetts in 2002 and 2010, I was also nominated for Secretary of the Commonwealth in 2006, ran for the local legislative body in Lexington and was elected to one of seven seats in Precinct 2 in 2005, ran for state representative for the 9th Middlesex District in Massachusetts in 2004. In 2003, I co-founded the Massachusetts Coalition for Healthy Communities, a nonprofit dedicated to the health and well-being of Massachusetts communities. I served on the board of the Greater Boston chapter of Physicians for Social Responsibility.

14. RELEVANT BIOGRAPHICAL NOTE. What other personal background, professional qualifications or life experiences do you have that are relevant to your being an effective GPUS candidate for president? [150 words max]

As a physician, I became increasingly concerned about the connection between people's health and the quality of their local environment, and turned to activism in 1998, when I began protesting the "Filthy Five" coal plants in Massachusetts. Which started me on my road to electoral solutions.

I co-authored two reports by the Greater Boston Physicians for Social Responsibility, 'In Harm's Way: Toxic Threats to Child Development' (2000), and 'Environmental Threats to Healthy Aging' (2009). My report, 'In Harm's Way' was republished in the peer-reviewed Journal of Developmental and Behavioral Pediatrics in 2002.
