

Annual National Meeting, Green Party US, Chicago, Illinois

Go fringe, Grow our movement, Build the Party

Chuck Fall, July 24, 2026

Our Pillars

Transform society informed by the 4 pillars:

- Peace / non-violent world;
- grass roots democracy;
- justice (social and economic and political); a
- ecological wisdom, restoration and revival of nature and bio-diversity.

The Green Pillar for non-violence inspires the idea of “going fringe”

- State violence committed against the country, is a fringe issue.
- Today focusing on state corruption and engagement from big money interests.

Non-violence impels us to expose fringe issues

- Fringe issues qualify as state crimes against democracy (SCAD)
- Lance DeHaven Smith coined term SCAD in his book
- Conspiracy Theory in America by Lance Dehaven Smith
- Aaron Good explains Deep State as primary actor in state crimes
- American Exception: Empire and Deep State by Aaron Good

“Fringe” issues trigger claims of “conspiracy theory,”

- “Conspiracy theory” may be code for a state crime
- Conspiracy theories often taboo topics
- Going fringe is difficult and requires effective communication

Frame fringe issues for movement building

- Select key high impact fringe issues
- Elevate fringe issues in Party media actions.
- Provide candidates with key talking points.

“Going fringe” to energize the Green Party

- Call out the big lies, and false narratives
- Tap into Americans distrust of government
- Deploy powerful, compelling rhetoric

Address fringe issues - demonstrate courage / leadership

- Most Americans want justice and accountability;
- Few think its possible
- Focusing on fringe issues demands justice
- Call out failure of Congress to uphold their pledge to the US Constitution,
- Fringe issues often reveal deep state malfeasance

Fringe issues not addressed by the Green Party

- chemtrails / aka illegal geo-engineering;
- electromagnetic frequency pollution from cell towers;
- bankers' control of money supply;
- false flag September 11 attacks;
- JFK assassination/Warren Commission Report;
- childhood vaccines / mandated healthcare;
- the Covid event;
- election theft.

Green Party platform highlights two fringe issues

Monetary Reform and call to investigate September 11

- The platform calls out the corruption of the national security state and diminishment of the 4th amendment unreasonable search and seizure.
- The Green Party media does **NOT** promote the BMRC media; nor does the media committee issue an annual September 11th tribute statements.

Examples of state sponsored Fringe issues

- JFK and other assassinations;
- geoengineering / weather manipulation;
- September 11 and anthrax attacks;
- covid event
- wars generated by 9/11
- the Ukraine war;
- the October 7 HAMAS attack;
- war on Iran

Speaking to Fringe Issues speaks to Justice

- Speaking to fringe exposes state malfeasance
- We demonstrate credibility as champions for truth, justice and accountability,
- Standing up against plutocracy, Greens demonstrate values

Be Open to Other Members' Perspectives

- Adopt an attitude of tolerance toward members who want to highlight fringe issues
- Don't immediately assume fringe issues are conspiracies
- Encourage dialogue and exploration

ACTIONS

Establish committee to explore fringe issues

- Provide a home for exploration, investigation and accountability of specific fringe issues
- A committee can offer National Committee findings and perspectives on fringe issues
- These findings can be made available to membership and to prospective candidates

Or Create a Green Liberty Caucus

- A Caucus can bear the burden of investigation and reporting, as part of but separate entity
- Can support accountability, transparency and protection for whistleblowers
- Provide representation for green libertarians
