

Thank you for your interest in getting involved in Alabama!

Alabama has some of the most onerous ballot access requirements for achieving official party ballot line recognition in the country. However, there are options for getting individual Green candidates on the ballot, as well as other options for regional ballot access recognition. Locally, the Alabama Green Party can get candidates on the ballot because there is a lower signature requirement. By this process of winning locally, the Green Party in Alabama grows, and the 10 key values enter the AL political scene.

We can help you make Alabama a place of your own. Isn't it time?
