

HOMESTEAD WIND

A 255 MW PROJECT DEVELOPED BY APEX CLEAN ENERGY

Wind projects boost the local tax base and diversify the rural economy,

all while strengthening America's energy resilience and keeping North Dakota as the leader in domestic energy production.

The local financial impact will be more than hundreds of millions over the life of the project.

HOMESTEAD WIND

LOCAL ECONOMIC BENEFITS SNAPSHOT

Over the projected 30-year life of the project, Homestead Wind is estimated to pay over \$35 million in taxes.

Over \$22 million of that revenue will be invested in Williams County, directly benefiting all local residents, not just participating landowners.

LOCAL TOWNSHIPS BENEFIT

Local townships will receive direct funds to support critical services.

Township	Annually	Over 30-year project life
Climax Township	\$ 2,094	\$ 62,813
Bonetrail Township	\$ 15,239	\$ 457,169
Bull Butte Township	\$ 2,403	\$ 72,100
Strandahl Township	\$ 1,254	\$ 37,605
TOTAL TWP. REVENUE	\$ 20,990	\$ 629,688
WILLIAMS COUNTY	\$ 124,003	\$ 3,720,088

Revenue directly allocated to Williams County and local townships can be used at the discretion of local leaders.

Think: roads, ditches, parks, and property tax relief.

GRENORA SCHOOLS BENEFIT

Grenora School District will receive over 17% of the total revenue, totaling **over \$6.3 million** over the life of the project.

This equates to approximately \$1,250 in added revenue per student, per year.

IN ADDITION ...

Project construction will bring **additional jobs, sales tax, and revenue** for local businesses like **restaurants and hotels**.

Homestead Wind will create up to **10 full-time skilled careers** with competitive salaries and benefits for the life of the project.

Over \$60 million in total landowner payments that will circulate throughout the local economy.

Apex hasn't waited to start investing in the community.

To date, **Homestead Wind has donated over \$100,000** in grants and sponsorships across Williams County with more to come during project operations.
