**Join us to
Transform
Eye Health**

2030 IN SIGHT LIVE Nepal was an incredibly well-curated event that gave genuine visibility to grassroots innovations. As a partner, I felt welcomed and valued throughout. The exposure we received at our booth led to high-quality conversations and potential collaborations. The event struck a perfect balance between global vision and local action, and it gave space to showcase practical, scalable solutions like ours. It was more than a conference. It was a platform for real connection and impact.

Exhibit at 2030 IN SIGHT LIVE

Showcase your work, products, and breakthrough technologies on a global stage where visionary leadership in eye health takes center stage. By exhibiting, you amplify your impact and increase awareness of the vital contributions your organisation makes to improving vision and eye care worldwide. This is your opportunity to expand your reach; connect with new audiences, collaborators, funders, potential partners, and policymakers from across the globe.
