

YOUR ICN BENEFITS

Thousands of patients & families benefit and so do you!

By participating in the ImproveCareNow Learning Health Network, your GI team taps into state-of-the-science QI tools & training, and a robust, open & global network of clinicians, patients, families, researchers & improvers. Applying an “all-teach, all-learn” collaborative approach to medicine, allows new ideas and best practices to be identified and introduced into the care delivery process much faster—enabling us all to improve health, care & costs for patients with IBD now.
