

Who We Are

About ImproveCareNow

ImproveCareNow (ICN) exists to transform the health, care and costs for all children and adolescents with Crohn's disease and ulcerative colitis (Inflammatory Bowel Disease or IBD) by building a sustainable collaborative chronic care network.

To do this ICN has created an inclusive, transparent and collaborative community where patients, families, clinicians, researchers, improvers, collaborators and friends are all empowered to learn, share and continuously improve, bringing about more reliable, proactive IBD care and healthier children and youth.

I learned in ICN that there is a great benefit when we all share our knowledge, experience, strength, and hope with each other. **It's very powerful.**

Our Success

Together we...

- Have raised the remission rates for young people with IBD from 55% to 82%, without new medications.
- Provide tools, training and support that centers use to deliver more reliable, proactive IBD care.
- Encourage open sharing of ideas, techniques, tools, knowledge and innovations across the Network.
- Believe that when patients and parents/caregivers are true partners, we achieve even better outcomes.

ICN brings together...

- 100+ care centers in the United States & District of Columbia, England, Qatar and Belgium
- 9 of 10 U.S. News & World Report Honor Roll Children's Hospitals and 42 of 50 top pediatric GI/GI Surgery programs
- 1,900 IBD care providers, including 960 pediatric gastroenterologists, caring for 29,500+ pediatric patients with IBD and their families
- Patient Advisory Council (PAC), Parent/Family Advisory Council (PFAC), Professional Working Groups & Partners

ImproveCareNow is always growing & improving.
