## ACCREDITATION STATEMENT AND CREDIT DESIGNATION

The 14th Excellence in Pediatrics Conference has been accredited by the European Accreditation Council for Continuing Medical Education (EACCME®) for a maximum of 16 European CME credits (ECMEC®s).

Each medical specialist should claim only those credits that he/she actually spent on the educational activity. The EACCME® is an institution of the European Union of Medical Specialists (UEMS), [www.uems.eu](http://www.uems.eu). Through an agreement between the European Union of Medical Specialists and the American Medical Association, physicians may convert EACCME® credits to an equivalent number of AMA PRA Category 1 Credits™. Information on the process to convert EACCME® credits to AMA credits can be found at [www.ama-assn.org/education/earn-credit-participation-international-activities](http://www.ama-assn.org/education/earn-credit-participation-international-activities). Live educational activities occurring outside of Canada, recognised by the UEMS-EACCME® for ECMEC® credits are deemed to be Accredited Group Learning Activities (Section 1) as defined by the Maintenance of Certification Program of the Royal College of Physicians and Surgeons of Canada.

EIP are proud to provide all delegates with access to the latest practical pediatric advice covering all stages of life, from infancy and early years to adolescent health, including the transition to adult care. The program builds on the success of the past 13 editions and has been designed to provide all pediatric healthcare professionals with a comprehensive and concise overview of the main pediatric developments taking place each year.
