

Faithful Green Leaders Training

Build, Inspire, and Transform Your Community

ONLINE!

We heard you. You need strong Green Teams at your congregations. We're here to help.

Interfaith Partners for the Chesapeake is pleased to offer our *Faithful Green Leaders Training* - a free online workshop, followed by a series of monthly Learning Lab webinars.

Teams Will Learn How To:

- Establish/grow a Green Team
- Engage your congregation with fresh environmental programming
- Develop an action plan
- Build your grant writing skills
- Enhance your communications skills to help spread the word
- Help your congregation use fewer single-use water bottles, less styrofoam, save on energy use, and create less waste

Get Your Team Together!

Green Teams work best with three to five people, so try to have at least three people from your congregation attend the training together. Any congregation based in Maryland; Lancaster, Pennsylvania; Virginia; or the District of Columbia is eligible. Green Teams will attend one core 3-part training and optional monthly webinars. Don't have a team of 3 yet? Contact us for tips on how to get your core group together in time to attend a training.

Why Should Your Congregation Participate?

It's free, it's fun, and it will help you lead your congregation to take meaningful action! Learn and network with other congregational Green Teams. Attendance qualifies congregations in some regions to receive \$500 in seed funding to grow your team.

All Learning Lab webinars are recorded and available on our website.

October 2026 TRAINING DATES

Session 1: October 6

Session 2: October 13

Session 3: October 20

Full training is 3 online sessions, on Tuesdays from 7-8:30p.m. (Registration closes October 1)
