Our Principles

End the endless wars and create a new foreign policy based on diplomacy, international law, and human rights

Create an economy that works for all of us, not just the wealthy and powerful

We must put an end to systemic discrimination to ensure rights, freedoms, and justice for all.

We must revive our democracy with a full spectrum of reforms, including the freedom of choice in all elections

We need to pass a Green New Deal that revitalizes the American economy, protects our planet, and safeguard our children’s future.
