GROWING TO SERVE MORE STUDENTS

KINDERGARTEN CLASSROOM PILOT

Our new kindergarten classroom is a bright, engaging space designed to spark curiosity and inspire a lifelong love of learning. Thoughtfully arranged areas for exploration, creativity, and collaboration give young learners the strong foundation they need to grow and thrive. In previous years, kindergarten-age students either transitioned directly to a traditional school setting or remained at KcATC in mixed-age group classrooms. This new, specialized space allows us to extend support for children in our early intervention program, offering them an additional year of individualized learning. Our dedicated classroom provides an age-appropriate environment focused on academic growth while helping students adapt to routines, expectations, and classroom structures—preparing them confidently for the transition to first grade.

2025 Impact

STRENGTHENING FAMILIES...

Having a child with autism spectrum disorder can be stressful for the whole family, and we want them to know they aren't doing it alone. In 2025, we continued our focus on giving our parents and families the support, skills, and resources they need to best support their children at home.

"Thank you, KcATC, for helping me see my son as you see him, both charming and challenging; an accepted and delightful teenager, who was encouraged to do his very best."

— Parent of 2024 Graduate

KCATC'S UNIQUE APPROACH

allows us to provide an additional

380 HOURS OF SERVICES for each child per year, which is

47.5 MORE DAYS of learning, growth and fun than other ABA providers.

"When you support KcATC, you're not just giving money — you're giving hope, opportunity, and a future with no limits. You're opening the world to kids like me."

— KcATC Graduate

KINDERGARTEN READY...

Many students have a goal of transitioning from our preschool to a traditional school once they are ready for Kindergarten.

IN 2025, **100%** OF STUDENTS with this goal were able to successfully transition to a traditional school environment.

Insurance only covers

70% OF PROGRAM COSTS.

KcATC does not limit our services, and we rely on generous donations to cover the gap.
