

The Government Should Make The Stage 3 Tax Cuts Fairer

The Stage 3 tax cuts should be modified so they benefit more Australians.

My community has been clear with me: if the government is going to add to inflation with tens of billions of dollars in tax cuts, it should do so in a fairer way.

For months now I have called on the government to retain the 37 percent tax bracket and redirect the \$8 billion a year saved to build 100,000 homes, and expand Commonwealth Rental Assistance to help those most in need keep a roof over their heads.

I welcome reports Labor is considering modifying the Stage 3 tax cuts.

Whatever happens, the government should make them fairer.

I will continue to make the case for Labor to be brave and help all Australians through the worst cost of living crisis in a generation.
