

Build the Movement for Trump's Agenda 47

Behind the frenetic lawfare being waged against President Trump stands the elite's understanding that Trump, as the 47th President, will **end their globalist system**. Not only has he said so, pledging to "take a sledgehammer to globalism," *but he is outlining revolutionary policies which can replace* their system. Those policies also contain the key to winning back Michigan and the industrial Midwest in 2024.

Yet, many Trump supporters are either unaware of Donald Trump's "Agenda 47," or have not yet grasped the dramatic implications of it. But the enemy has. Democratic think-tanks have already done polls in key "factory towns" in the Midwest and found that **Republicans will WIN if they focus on economic issues** and will lose if they *only* focus on social and cultural issues (hello, Ron DeSantis).

Donald Trump understands this and is laying out a breath-taking series of initiatives which will free our economy from the grip of the globalists and their policies of perpetual war. He has called for protecting Social Security and Medicare, creating a system of universal, baseline tariffs, and opposing the bank bailouts. He has warned that the neo-con warmongers and globalists will start World War III and has proposed steps to achieve peace.

But, it is President Trump's March 3, Agenda 47 proposal which has the broadest implications. He called for a "quantum leap to revolutionize the American standard of living," baby bonuses to create a new baby boom, and the design and building of 10 new "Freedom Cities" in the United States. The only way you can get **more people and a higher real standard of living** is by increasing physical output to make people more productive through advances in science and technology. And to do that, you must break the grip of the anti-growth central banking and environmental policies of the World Economic Forum and the imperial elite which they serve.

The thrust of Donald Trump's Agenda 47 embodies a new concept for rebuilding our nation. It is not an aggregate of proposals to merely undo the damage done to our economy in recent decades. More than anything, it embodies the American spirit of optimism and new frontiers and quantum leaps!

LaRouchePAC is committed to advancing and deepening Donald Trump's Agenda 47. We have created a resource page on our website at lpac.co/ag47. Join us in building a movement for these policies, and ensure that they can be implemented by Donald Trump as the 47th President of the United States in 2025.
