# Exposed: The FBI Gestapo Is Now Targeting All Trump Supporters

Bill Arkin, the storied national security reporter for Newsweek, published a story this week which should command your urgent attention. He documents that a secret unit of the FBI is now targeting supporters of Donald Trump in the same way that Isis terrorists were targeted and “neutralized.”<sup>1</sup> That is what is behind Hillary Clinton’s call Wednesday for “deprogramming” the MAGA “cult members.” That is also what is behind the claim now widely circulating by our Orwellian news media’s Truth Ministry that those opposing further funding for the war in Ukraine are pawns of a gigantic brainwashing operation run by that Master of Maskirovka, Vladimir Putin.

There is dead panic in Washington about the fact that their assassination by lawfare attack on Donald Trump is not working. Each attack geometrically increases support for the 45th president as he marches to a second term. That panic overflowed with the dismissal of Kevin McCarthy as House Speaker and the halt of funding for the war in Ukraine. The American people through direct action on their representatives halted the Biden/British fiasco in Ukraine by defunding it—at least temporarily. The war has been lost for some time and now Ukrainians are running out of soldiers to sacrifice to the geopolitical desires of the British and their Washington toadies. The Biden/British coalition views the Ukrainians as cheap cannon fodder for purposes of “bleeding Russia” and imposing energy and social hegemony over Western Europe—particularly Germany.

The vaunted Spring Offensive, from which Ukraine was supposed to emerge victorious, has failed spectacularly. Millions of Ukrainians have fled the country. Soldiers trained by NATO for the offensive who are not maimed, dead, or kept from surrender by force are few and far between and Western wonder weapons sit as smoking ruins on the battlefield. “Corruption” in Ukraine, and Nazi infiltration and control of whole sections of its government have suddenly been rediscovered as a problem by Washington’s elite. Zelensky, Justin Trudeau, and the Canadian Parliament wildly applauded a Ukrainian former member of the Nazi SS in what became an international scandal on September 22nd.<sup>2</sup> Meanwhile, Volodymyr Zelensky’s wife, Olga, was apparently dropping \$1.1 million on jewelry at Cartier’s in New York based on eyewitness accounts. This, of course, has been heatedly denied based on the very bad “optics.” But the Biden Administration itself had leaked classified intelligence pinpointing massive corruption as the most significant problem hindering Ukrainian military success.

In Europe support for the insane war is rapidly collapsing, with voters in Slovakia electing an antiwar president, Poland stating that it will commit no more funding, and other nations kept in line via threats from the globalist gendarmes even as they note the sinking public support for their slave masters in the U.S. and Britain. If Biden and his madmen don’t act to escalate into a total war in Europe now (and they are now madly toying with that option) their corrupt and evil design and

the lies they told the People about it will be totally exposed and they will be driven from office. In remarks on Wednesday, Biden said “there were other means” for funding the war. He had the same smirk on his face that he had when he was obliquely referencing his covert plan to blow up the Nord Stream pipeline, his subsequent act of war against Germany.

“Biden” is, of course, a hologram, a senile and demented avatar for those actually running him in the Democratic Party and its associated Deep State apparatus. They have been yammering about Trump’s unprecedented and growing MAGA movement as a threat to the state ever since January 6, but the movement has only grown in size and determination. Having so far failed to decapitate the movement by its lawfare attacks against Trump, they have expanded the war to Trump supporters claiming they are “violence-prone.” Simultaneously, they take outrageous actions against Trump in the hope of provoking violence by his supporters.

As Bill Arkin tells it, in the wake of January 6, the FBI created a separate category of domestic terrorists to encompass Trump supporters, formalizing it in October of 2022 as AGAAVE-Other. He writes: “From the president down, the Biden administration has presented Trump and MAGA as an existential threat to American democracy and talked up the risk of domestic terrorism and violence associated with the 2024 election campaign. ‘Donald Trump and MAGA Republicans are a threat to the very soul of this country,’ President Biden tweeted last September, the first time that he explicitly singled out the former president. ‘MAGA Republicans aim to question not only the legitimacy of past elections but elections being held now and into the future,’ Biden said.” Those September tweets were accompanied by Biden’s hellscape speech from Philadelphia’s Independence Hall targeting MAGA as terrorists and fascists.

Those familiar with how the extra-Constitutional warfare powers granted to the intelligence community under EO 12333 function, recognized that the President of the United States designating MAGA in this way was an invitation to COINTELPRO and war by the United States government against this newly designated foe.

Arkin continues: “Right after January 6, the FBI coauthored a restricted report (‘Domestic Violent Extremists Emboldened in Aftermath of Capitol Breach, Elevated Domestic Terrorism Threat of Violence Likely

Amid Political Transitions and Beyond’) in which it shifted the definition of AGAAVE (‘anti-government, anti-authority violent extremism’) from ‘furtherance of ideological agendas’ to ‘furtherance of political and/or social agendas.’ For the first time, such groups could be so labeled because of their politics.” This evolved to a definition of “domestic violent extremists who cite anti-government or anti-authority motivations for violence or criminal activity not otherwise defined, such as individuals motivated by a desire to commit violence against those with a real or perceived association with a specific political party or faction of a specific political party.”

Attacking, exposing, and dismantling this new offensive against MAGA now becomes the acid test for choosing a new Speaker of the House and changing the path of the presently ineffective House Subcommittee on the Weaponization of Government. Why is it that Bill Arkin and Newsweek are telling us about this and the much ballyhooed Subcommittee knows nothing about it? If they were actually focused on who and what is behind the current Jacobin jihad against Donald Trump, it would have been evident. Subpoenas should fly out the door now to Chris Wray, DOJ, the Biden White House, Homeland Security, and the ODNI. Is EO 12333 in force against MAGA? Who else is involved?

Will you defund the Trump prosecutions now and move to impeach Merrick Garland, firing Chris Wray in the process? Will you use the Garland impeachment to dismantle the apparatus in the DOJ, Homeland Security, the NSA and the CIA which is right now fixing the 2024 election through prosecutions of Trump, censorship and search engine manipulation, while promoting the on-the-ground activities of the Democratic Party Jacobin election riggers? Do you have the courage to end the Ukraine war now and expose the corruption which has driven this genocide for profit? Affirmative answers to these questions and a rigorous plan to ensure successful results are what we demand now from our elected representatives and any candidate for House Speaker.
