Stop the Prosecutions of Donald J. Trump NOW!

Below is a petition which needs to have signatures in the millions. The Democrats have a blatant, unconstitutional plan to take out the candidate presently leading the polls for President in 2024, to jail him until he dies. They have realized that he will win the 2024 election. If the four prosecutions of Trump now in motion are allowed to continue we will have become a totalitarian Empire, desecrating our founding principles and all who died for them. Like all Empires, ours will die soon after, having doomed ourselves.

Note the House of Representatives elected in November of 2022. They are talking about doing that which could end this national nightmare as outlined below. But, they lack the courage only the demands and the support of millions for this necessary step can provide. Demand that they assist us in saving the Republic.

Whereas, Representative Matt Gaetz of Florida has vowed to draft legislation defunding Special Counsel Jack Smith, who intends to use his bad faith and fabricated prosecutions of the 45th President to prevent Donald J. Trump from running for the Presidency in 2024; and,

Whereas, House Speaker Mike Johnson has made clear his opposition to the weaponization of the government against Donald Trump; and,

Whereas, District Attorneys Fani T. Willis of Atlanta, Georgia and Alvin Bragg of New York, New York have instituted equally bad faith and spurious prosecutions of Donald J.

Trump which are being coordinated through Merrick Garland's Department of Justice; and,

Whereas, Donald J. Trump is the sole major candidate for President in 2024 who has vowed to end the genocidal Ukraine War and clean out the military industrial complex which has led this country into ignoble and dishonorable forever wars; and,

Whereas, Donald J. Trump is the sole major presidential candidate who has endorsed the American system of political economy—an economy whose advanced manufacturing, advanced energy sourcing, and modern infrastructure platform ensure the pursuit of

happiness for every American and his or her posterity;

Now, therefore, we the undersigned call upon our representatives in the U.S. House and U.S. Senate to approve the legislation put forward by Rep. Matt Gaetz and any similar measures aimed at halting the prosecution of Donald J. Trump and we call upon Speaker Johnson to ensure the impeachment of Merrick Garland; and,

We call upon the citizens of Georgia and New York to defund and halt the planned

prosecutions of Donald J. Trump in New York and in Georgia;

This petition will be delivered to Representatives Gaetz and Speaker Johnson in the U.S. House of Representatives and to Burt Jones, the Lieutenant Governor of Georgia, and Lee Zeldin, former U.S. Representative and former Republican candidate for Governor in New York.

(Updated on October 31, 2023 to reflect the election of a new Speaker of the House)
