

# ***Together with Larry Ngan and Let's turn Dulwich and West Norwood Gold!***

Dear Fellow Liberal Democrats,

My name is Larry Ngan and I have been shortlisted as the Party Parliamentary Candidate for Dulwich and West Norwood on the next election.

I grew up in Hong Kong and moved to this country on 2006, and stayed in this lovely country since then, well except the typical British weather. As a gay guy from another cosmopolitan city, I love the liberal, dynamic, multi-cultural, and open society of such a great city.

I joined the party on January 2017 because I witnessed the damages of Brexit caused by the EU referendum to our society and economy. As the Vice Chair of the Residents' Association I also had the first hand experience on how poor services from the local council affected the livelihood of local residents, and how limited rights do the property owners had, particularly those who lived in Affordable Housing Schemes.

We are at the crossroad of the our country's future: A road leading to backward looking Little England led by a party who is undemocratic and increasingly hostile to immigrants and neighbouring countries, or a road leading to a progressive and liberal United Kingdom who supports citizens from all social ethnic background to contribute our society, and cooperate with EU to develop a better economy and quality of life.

People in this constituency deserves better than being represented than Tory who supported hard Brexit, and Labour who supported the hard left agenda. Dulwich and West Norwood also deserved better public transport and more transparent consultations on the ongoing and any further urban regeneration plans.

It will be an honour to be shortlisted for this constituency, and if I am selected I will do my best to serve the interest of the local residents.

Wish to speak to you soon!

Best Wishes,

Larry Ngan

## Objective

I want a liberal, transparent and multicultural United Kingdom, and a well run public transport in Dulwich and West Norwood. That's why I chose to run as its PPC.

Being a former councillor candidate and a local activist in Queensbury, Brent, I would like to use my previous experience and bring in changes to the constituency.

---

## If I am elected, I will campaign for:

### New Built Property Owners Rights

New built properties, particularly those under Affordable Housing Schemes, scattered around London, property owners want them to be well run and their rights to be protected. However, management companies often provided bad services to the residents and did not take the interest of the inhabitants as their priority. I will campaign for the accountability of further development plan, and the protection of rights to the property owners of the new built properties.

### Transparent Urban Development Plan

A lot of urban development projects took place in Dulwich and West Norwood, like most parts in London, and our residents wanted the infrastructure and quality of life not to be compromised. However, these plans are either not transparent, or the plans were not serving our interests. I will campaign for all these plans to be properly scrutinised under public consultation with the financial details to be disclosed.

### Improved Public Transport Services

Residents in Dulwich and West Norwood are the victims of the poor services provided by the Thameslink and Southern Rail. I will use my experience of handling TFL to campaign for the Thameslink franchise to be reviewed, and the improved the frequency of the services.

### Stop Brexit

Brexit is so damaging to the fabrics to our economy and society. UK is a multicultural society and as an immigrant myself, we need a society which would appreciate our contribution to the economy and culture. Remaining in European Union would be the best way to protect our society from the increasing threat of alt right movement. Therefore I will support the case of revoking Article 50 through the means of the People's Vote.
