

My Vision:

As Young Liberals, everything we do is focused on helping young members of the party to have our voices heard, get elected (internally and externally), and make a difference in our society.

Therefore, I think it's important that how we spend our resources should reflect that.

As Young Liberals finance officer, I want to invest in our conferences, membership engagement, and getting our members to federal party conferences so that we can be at our best - an engaged, effective, and radical campaigning organisation.

To this end, I want to expand the YL Merch offering that Jack introduced, so that we can sell a broader range of merchandise all year round as a way to raise funds to support our activities. I'd also hope to have limited edition items available at conferences.

I want to continue the work around making Young Liberals finance more transparent, so that our members understand where we spend our money and how it's being used.

And I want to reform access fund and volunteer reimbursements, so that our members are never out of pocket for supporting our work.

I'm committed to delivering value for money for our members, and making sure that our finances are managed in a responsible and accountable way. Expanding our existing income base, and focusing our expenditure where it will have the most impact, I hope you'll join me in voting Lucas for Finance Officer!

Lucas North for Young Liberals Finance Officer
