

**My manifesto for the EoE Regional Chair is below:**

8 Years Liberal Democrat member with experience in nearly every exec role and becoming a local party chair at 19.

This experience gives me invaluable experience in understanding how every exec role fits together to make a great local (or regional!) party.

3x council candidate who can support other candidates with advice and campaigning tips.

Chaired the 2019 General Election campaign where my local party held their deposit for the first time in 9 years.

Focused on improving youth representation across the region and getting more young people elected.

In my short time as Chair already (after being co-opted) I have already started to change older members' impression of Young Liberals and have been commended on this.

Support even more EoE Young Liberal members to access schemes such as Future Councillors and Young and Winning by exploring the obstacles and working to resolve them.

Managed to double my executive within 2 weeks of being chair.

To summarise my 3 key promises are:

1. Get the East of England Young Lib Dems active and growing with support from University societies.
2. Support more young people getting elected on all levels by working with local parties to engage and encourage Young Liberals as well as encouraging the use of schemes such as Future Councillors and Young and Winning.
3. Explore barriers relating to why individuals can't get involved with local parties or access schemes which could benefit them.
