

Global Liver Institute Statement on the Passing of Dr. Stephen Harrison

The entire field of liver health has experienced an incredible loss. It is with great sadness that Global Liver Institute, our Liver Action Network members and the patient community express our deepest sorrow on the sudden passing of Dr Stephen Harrison. Our condolences and prayers are with Dr. Harrison's family, friends and loved ones.

As Founder & Chairman of the Board for Pinnacle Clinical Research and the President of Summit Clinical Research, advisor, innovator, entrepreneur, author of countless publications, healer, encourager, and the embodiment of that sacred role of physician to so many patients; Dr. Harrison has not only left a legacy of changed science, but changed people.

We are immensely grateful for the time, expertise, and good humor that Dr. Harrison brought to his work supporting GLI and the patient community. We pledge to honor his leadership and legacy by continuing to raise the bar on the focus and resources available to improve liver health.
