Attn. President Doreen Harris
State Energy Plan Comments
NYSERDA
17 Columbia Circle
Albany, NY 12203-6399

Re: Comments on 2025 New York State draft Energy Plan

Dear President Harris:

The following pages include the names of 12,624 New York residents who stand with Pipeliners Local 798 in supporting an Energy Plan that prioritizes a balanced energy system, economic growth and a positive long-term job outlook for skilled industry craftsmen.

These individuals submitted emails directly to the NYSERDA during its public comment period because they recognize the critical need for investments in energy infrastructure across the state. Besides the environmental benefits of clean-energy development, these investments put emphasis on creating good-paying construction jobs and strengthening New York's economy.

As the Business Manager of Local 798, I am proud to submit this list of New York residents in conjunction with our Local's comment signers – nearly 14,000 advocates in total between these two submissions. Please consider the voices on the following pages as you evaluate potential revisions to the draft Energy Plan.

Sincerely,

Danny Hendrix
Business Manager
Pipeliners Local 798
