

May 5, 2026

Attn. Senator Alan Armstrong
SH330 Hart Senate Office Building
Washington, DC 20510

Dear Senator Armstrong,

Please accept the attached letter offering a much-deserved congratulations on your appointment to the U.S. Senate. I am proud to submit this on behalf of Pipeliners Local 798, a trades union based right here in Oklahoma and representing thousands of the nation's most highly skilled and trained industry workers across the country.

Our members collected 660 signatures on this letter from the American Pipeline Action Network because they recognize the role you have actively played in pushing natural gas pipeline infrastructure through the permitting process and into development. These projects put our members to work and help power our nation's economy.

As Business Manager of Local 798, I speak on behalf of our membership when saying that we look forward to working with you and your colleagues in the Senate to grow more opportunities for skilled craftsmen, strengthen the nation's energy infrastructure network, and help achieve long-term energy security.

Thank you for your time and attention.

Sincerely,

Justin Wallace
Business Manager
United Association Pipeliners Local 798

Attn. Senator Alan Armstrong
SH330 Hart Senate Office Building
Washington, DC 20510

Dear Senator Armstrong,

On behalf of the United Association's Local 798 Pipeliners, we extend our sincere congratulations on your appointment to the United States Senate. This is a well-deserved recognition of your leadership, industry expertise, and longstanding commitment to strengthening America's energy infrastructure.

Throughout your distinguished career, including your leadership at Williams Companies, you have demonstrated a deep understanding of the critical role that natural gas and pipeline infrastructure play in powering our nation's economy. Your work advancing reliable, safe, and efficient energy delivery systems has helped ensure that American families and businesses have access to affordable energy, while also supporting job creation across the country.

Your leadership within the energy sector has consistently reflected a balanced approach — recognizing both the importance of economic growth and the need for responsible development. As strong advocates for infrastructure investment, regulatory clarity, and workforce development, we appreciate how you have helped elevate the conversation around maintaining U.S. energy leadership in an increasingly complex global landscape.

For the hardworking men and women of Local 798, your commitment to the pipeline industry and the skilled trades is especially meaningful. Our members take great pride in building and maintaining the infrastructure that keeps America running, and we value leaders who understand the importance of our work and the communities we support.

We are confident that your experience, insight, and steady leadership will serve the people of Oklahoma — and the nation — well in the Senate. We look forward to working with you to advance policies that strengthen our energy infrastructure, support American workers, and promote long-term energy security.

Congratulations once again on this important achievement. We wish you continued success in your service to the country.

Signed,
