Have you just joined or been thinking about joining the League of Women Voters? Have questions about how you can participate in election activities? Just want more information about who we are and what we do?

Join us for some light refreshments and informal discussion; meet members and committee chairs eager to share their experiences in the League's work.

Learn more about "Making Democracy Work[®]" through voter education and public awareness campaigns and via our publication the ***Voters' Guide***; hear about the League's ongoing studies of important local issues, committee work and advocacy efforts within the community.

We would love to answer your questions and hear your story.
