I am running for the LYMEC bureau !

Dear liberal friends,

After stepping down as International Officer of Jeunes MR a few months ago, I felt it wasn't the end of my journey just yet. I've been a member of our LYMEC family for almost four years now but I believe I still have something to offer.

LYMEC has been giving me a lot these past few years.

It's been a place of debates, projects, collaboration and friendship and now It's time to return the favor !

I want to put my experience at the service of LYMEC and its members. I want to work with you to take LYMEC a couple steps further in terms of training. My platform is based on two simple facts :

  1) Politics is becoming more grassroots than ever and LYMEC needs to get its boots on the ground

  2) European election are around the corner and we need to get ready for it

For these reasons, LYMEC needs to further develop its training programme. Some modules will need to be launched in addition to the trainings we already have like the alliance of her or the young changemakers academy.

this programme needs to be more accessible to the one we already have and should be flexible enough to be tailor made to the needs of our organization and the one of our member organizations.

To achieve that goal, I want LYMEC to instill a culture of peer training and put thought ou toolkits together. This will allow Member Organizations to organize, with the support of LYMEC, training in their region. The objective is not only to better train our members but also to create spaces for collaboration between or member organziations.

MO's and other linke minded organizations have already put in place trainings programmes. Reaching out to these organizations to learn from their experience will also be a key aspect to build a strong and reliable training programme.

As Benjamin Franklin said **« Tell me and I forget, teach me and I may remember, involve me and I learn »**

I'd be thrilled to talk with you about my ideas, answer your questions and hear your remarks !

Don't hesitate to contact me
