

To: European Liberal Youth (LYMEC) bureau

Nomination of Laia Comerma as a candidate for the LYMEC Bureau

Barcelona, 22 April 2022

Dear liberal friends,

As Secretary General of JNC and on behalf of our National Executive Committee, I am delighted to nominate Laia Comerma as a candidate for the LYMEC Bureau. Laia's record of accomplishment in JNC and other organisations, as well as in LYMEC itself, leaves no doubt in my mind that she fulfils all the requirements to be nominated for a second term as LYMEC bureau member candidate. Her involvement in LYMEC as part of JNC's delegation first, later as delegation leader and JNC European Officer, and during the last two years as bureau member responsible for events and trainings, is the utmost testament to her dedication and commitment to LYMEC

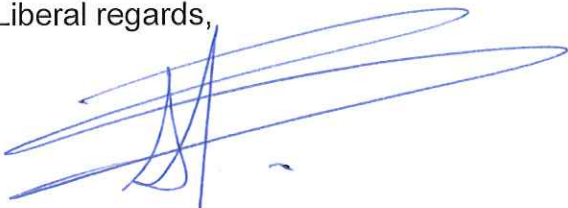

Laia has contributed to JNC in multiple areas, territorially as part of her local section, nationally as part of the National Executive Committee, and internationally as our representative to LYMEC and attending many of its Member Organisations' congresses. She has accomplished the promises she committed to do when she was first nominated for the LYMEC bureau, and successfully served in LYMEC in the position she was elected for in Spring 2020. She has proven her reliability and knowledge of how European politics and youth movements work, and her commitment to a job well done.

Furthermore, her academic training on international relations, specializing on EU-China economic cooperation, and her professional experience working on organisations in this sector gives her the desirable background for someone aiming to take up the tasks required from a bureau member, especially if being responsible for LYMEC's policies, and the capacity to help LYMEC and its members achieve its full potential.

Laia is a committed person that puts all her passion in what she does and feels comfortable working in international environments. I am proud of her decision to re-run for the bureau and gives credit to the hard work she has done in the last mandate, and I support the responsibilities she aims to take on if re-elected.

I therefore ask all LYMEC Member Organisations to support Laia and together build a LYMEC that is more prepared than ever for the new challenges that we face today, in such a crucial year for a Europe tainted by war.

Liberal regards,

Álvaro Clapés-Saganyoles i Baena
Secretary General
Joventut Nacionalista de Catalunya
