

Motivation Letter- Oriol Marín Subirà

I am a graduate of ESADE Law & Business School and University of Virginia. I am currently working as an Investment analyst for CaixaBank (a Spanish bank). I have also worked in Venture Builders and Venture Capital in previous years, being able to work on another passion apart from politics, which are innovation and technology.

I think that my work experience can positively contribute to the task I am pledging.

My political activism started when I was just 17, and since then I have participated in many things, mostly at a regional level, but lately, I have involved myself in the duties of JNC's International Officer. My most relevant international experience would be the following:

- I have been taken part in JNC National Council since 2014.
- I have been a member of the JNC Bureau since 2019
- I have participated in LYMEC Congresses since 2020.
- I participated in the Young Changemakers Academy of 2020.
- I have written articles for Libertas & the 2021 EU Diplomacy fit for the Future book.
- I actively participate in public events such as The Mobile World Congress or The South Summit for work.
- I have co-led an international cooperation project focused on battling youth unemployment during summer 2021.
- I have been part of LYMEC's Delegation at the 2022 ALDE Congress in Ireland.

I hope you consider this substantiates my decision to take part in the LYMEC delegation.

Looking forward to the Congress in Bucharest.
