

Dear liberal friends,

Over the past years, I have had the opportunity to participate as a **Ciudadanos' Delegate at the ALDE Congresses of Madrid in 2018 and Athens in 2019**. There, liberals from all over Europe, we could discuss, exchange ideas, find compromises... and above all we worked together towards a common goal, which is to make Europe stronger and truly liberal.

Every year, I have observed with admiration how the LYMEC Delegation has spoken out loud, how it has defended with conviction the policy book and how it has represented in every single moment the interests of all young liberals in Europe. It would be a great honor to me to be part of this delegation.

CANDIDATE- LYMEC DELEGATION TO THE ALDE PARTY CONGRESS 2023

For those I have not had the pleasure to meet yet, my name is Alex and I am the International Policy Officer of Jóvenes Ciudadanos (JCs). I have actively gotten involved in European politics and youth projects for the past years in different countries across Europe. Moreover, I have gotten to know most of your organizations, introduced JCs to numerous partners abroad, as well as developed practical actions to make the voice of Spanish young liberals be heard in Europe.

Our team has worked hard **to develop a close relationship with the group of Ciudadanos at the European Parliament**, within the Renew Europe group, which enables us to effectively push forward our position on European policies.

Let's continue again to make Europe more liberal and stronger!

Furthermore, I am **especially proud of having participated and contributed as part of JCs** to different LYMEC Congresses and events. There, I have had the chance to present resolutions, to present numerous amendments to policy resolutions, to reach agreements, to participate in the working groups to create policies or to clean up the policy book, among others. Moreover, **I was one of your LYMEC delegates to the ALDE Congress in Dublin in 2022**. I am proud for having **contributed and introduced for the first time at the ALDE Congress a resolution on mental health**. Applying again to be part of the LYMEC delegation to the ALDE Party Congress represents to me and JCs a further step towards actively contributing to the work of our young liberal family. The ALDE Party Congress is a great opportunity for us, young liberals, to be heard and have an impact in European politics.

If you trust me as a LYMEC Delegate to the next ALDE Congress, I compromise to:

- Lobby with conviction and in a well-defined strategy our policies, making use of the contacts made over the past years and in the last ALDE Congress in Dublin and involving again the group of Ciudadanos to gain support for our policies.
- Meet people actively and make new interesting contacts for LYMEC that can help to push forward policies before the ALDE Congress as done in Dublin, to contribute to our future trainings and possibly to develop new collaborations together.
- Ensure transparency and communication to inform and involve Member Organizations, in the work done previous, during and after the ALDE Congress as done in Dublin.
- Be a proactive team member again within the delegation in order to achieve the proposed goals of LYMEC at the ALDE Congress 2023.
- Commit to the overview of tasks and responsibilities compiled by the LYMEC's Bureau.

Thank you in advance for taking the time to read and consider my application. I would be very happy to talk with you in case you have any question, ideas, comments or suggestions.
