

## **Lova Bodin | LYMEC Delegation to ALDE Party Congress**

My name is Lova Bodin, and I am the International Officer of the Centre Party Youth of Sweden. I am currently doing my first year as International Officer, however it is my third year in our International Committee. My engagement in CUF has also entailed being the district chairman for my home district, as well as being employed by our national organisation during the election of 2022. In this role I worked with our communication, mainly producing content for our social media and employing strategies to bring attention to our policies.

### **Motivation:**

I have previously taken part in many congresses in CUF and have been part of delegations to the Nordic Centre Youth, IFLRY as well as the Centre Party. Fighting for liberal values and meaningful policies is a great passion of mine. I believe getting to be part of the LYMEC delegation would be an amazing opportunity to fight for LYMEC's resolutions and make them reality by implementing them in ALDE. As ALDE's youth organisation, we should always strive to hold them accountable when it comes to bringing about important change. I believe this entails standing up for democracy, further EU integration and supporting Ukraine in their fight for Europe's freedom. Besides bringing experience and energy to the debate at the congress, I would also be able to use my skills in communication to help promote LYMEC's work and positions through social media during the congress.
