

Petition to the San Bernardino County Supervisors

Sunday, June 12, 2022

Dear San Bernardino County Board of Supervisors,

We ask that you enact an immediate 'pause' on the renewal of, and issuance of new Short Term Rental (STR) permits in the un-incorporated communities of San Bernardino County.

We are not advocating for the abolition of STRs, however the unchecked proliferation of STR 'businesses' are contributing to a housing crisis that is exacting a terrible toll on the citizens, businesses and communities of the County. The first step in solving any problem is to acknowledge, and then define the problem; a 'pause' will provide the time needed to undertake studies and analyses that will culminate with the adoption of balanced policies and regulations needed to address our housing crisis.

| • Total Signatures collected online between May 28 and June 12, 2022 | 436 |
| • San Bernardino County residents signing petition (when reported by signer) | 335 (77%) |
| • Individuals who added comments in addition to their signature | 117 |

In Section I all comments submitted by 7 AM Sunday, June 12 are provided. In Section II, all signatures are listed, with County of residence shown if provided.

SECTION I - COMMENTS

	Full name	Comment
1.	Pam Anders	Please, please, please! Our local Community is collapsing.
2.	Anna Aramburu	Due to concern for our community and the need for housing, I ask that you consider limiting the amount of STRS one individual or corporation can have to 2. I am a teacher and work for MUSD. Families can't afford to live here and work locally if all the housing goes to STRs rentals.
3.	Cathleen Armstrong	This is overdue. Short-term rentals are degrading quality of life for full-time residents.
4.	Russel Bainbridge	We need to stop with all of these short term rentals . It's causing people to be homeless. Thx Russ

5.	Mary baumann	Please pause and rethink STR plan for JT. There is no balance or method to the madness.
6.	Sandra Beckwith	Consideration of impact on local communities, businesses, infrastructure, resources, housing, people, must be a part of the permit issuance process, for the health of our communities.
7.	Shelley Black	I own two long term rentals in Big Bear City and have an interest in limiting STRs in the unincorporated areas of San Bernardino County. We need more long term housing options for our permanent residents who support the infrastructure of our community. The influx of STRs is taking housing from permanent residents.
8.	Brenda Blank	After being displaced, from the home we were renting for 8 years, and given 60 days to move, so it could become an "Air BnB, the only somewhat affordable housing we could find was a month to month lease, at a increased rental of 500 a month above what we were paying. My husband has since lost his leg due to burns sustained by a faulty faucet in the new rental, with no recourse. We now pay 1750.00 for a month to month lease. I need security for my family. As do so many others. The situation has become dire for so many. Something must be done for the families that ARE the community!
9.	Lori Bloom	Please place a pause on new STR permits until the balance of the needs of the community and the STR owners can be figured out.
10.	Lance Bowen	1 month should be the shortest rentals allowed in the area,
11.	Ronald Bukovac	I have 5 STRs around me. Also, we are losing long term rentals for our hospitality and service workers, forcing them off the mtn
12.	Kerry Cole	I had to move 2 times in the last year because people are selling their rental homes. Each time we had to move the rent prices have gone up. I currently pay double the rent as the home I originally rented a year and a half ago. I had to move further from work because no rentals are available. I now live an hour away from the school where I teach.

13.	Caroline Conway	<p>Our small house at the western edge of Joshua Tree National Park is now surrounded by 6 STRs and we are losing our longtime neighbors in Monument Manor. Our dirt roads cannot handle the traffic and the trash situation has gotten worse as rental bins are overfilled and often topple. The wildlife has suffered and we know poison bait is being used by the STR management company in our area. Traffic has increased and we are terrified that guests who do not understand the the fire danger will lose control of one of the their frequent recreational fires.</p> <p>This pause is necessary as the County needs to see how STRs have changed our communities.</p>
14.	Martin Cox	You have ruined our desert home.
15.	Petrina Cressy	<p>I have Airbnb's on both sides of me across from me and behind me. One of which looks directly down into my backyard. we no longer have families, children, or neighbors. Everything is about out of towners profiteering from our wonderful desert, I have six children and none of them will ever be able to afford to live in the town I raised them in.. I was born in Yucca Valley in 1965 and moved to Joshua tree in 1988. This is a very sad reality for my children!</p>
16.	Chris Crow	<p>We're experiencing deteriorating roads, trespassing, unmonitored recreational fires, increased traffic, rodenticide use, diminished wildlife (except for ravens & roaches), late night lights & noise, overflowing trash bins, & speeding.</p> <p>Time for a breather to better manage the increasing problems resulting from treating an otherwise peaceful residential area as a commercial enterprise zone.</p>
17.	Carrie Dagher	I no longer live in peace. My neighborhood has become a corporate entity which was never zoned to be one. Why is this even legal?
18.	G. DaPonte	We are drowning in AirBnBs - our neighborhoods are not motels! No more!!!
19.	Michelle DiSimome	<p>Businesses don't belong in residential neighborhoods. What used to be my "happy place" has been overrun by STR hotels with an ever-revolving door of strangers infiltrating our formerly peaceful community.</p> <p>Enough is enough. Please enact a pause on new and renewal permits until realistic regulations can be determined and adopted.</p>

20.	Iari Doughty	this has changed the whole flavor of our beautiful desert town!!! and has also caused a housing crisis, as there are no places to rent. and now places are also too expensive to buy ! this is not why we retired here !
21.	Clay Elam	Short term rentals promote homelessness and criminal activity.
22.	Kimberly Elorza	Our once quiet residential neighborhood is already overrun with STR's!! Its gotten to the point where we don't know half our neighbors anymore. Many of the LTR's became STR's forcing families to abruptly find other affordable places to live, which is now almost impossible, or leave the area altogether. The undeveloped areas of our neighborhood are being bought en masse by Contractors and Corporations that are primarily building over-priced STR's, with no respect for the surrounding land nor the peace and quiet of the neighborhood. Our town needs more affordable housing, homes and apartments, for the families and individuals who want to work and live here year round. We are already experiencing a labor shortage in our town because of this. And what's with all the new pools ? We're in the middle of a severe drought, we're being asked to reduce our water usage, and permits are still being issued for new in-ground pools, consuming thousands of gallons of water, for these STR's ?
23.	Brenda Estrada	Very heartbreaking how local families are struggling to find housing. Thank you for trying to help
24.	Janellen Farmer	Stop this insanity of greed!
25.	Jane Fawke	Our community is being ruined by these STRs. I am surrounded by them. The visitors have no sense of community or neighborhood. Time to put a stop to them.
26.	David Fick	STRs are way TOO MANY right now.
27.	Mj Fiocco	Neighborhoods should be for residents and not partygoers looking for a cheaper place to make noise and leave trash.
28.	John Fitzpatrick	My small town of Joshua Tree lacks infrastructure needed to accommodate all the visitors generated by the influx of short term rentals. The county need to use some of the taxes and fees generated by the STRs to invest in the community which is the source of these fees. A pause would allow time needed to assess this problem.
29.	Pat Flanagan	Thank you for making this petition available. this is a very important issue that needs action by the County Supervisors.

30.	Meg Foley	A moratorium is needed until the codes can be developed to prevent residential areas from being over run by corporate interests. Please listen to full time residents and business owners and fully assess the impact of STR's on residential areas and ensure housing for local workers.
31.	Roberta Frederick	There needs to be some balance in this area sooner rather than later. The number of STRs is beginning to destroy the quality of life for many here. It is time for the San Bernardino County Board of Supervisors to consider the well-being of all the citizens they are supposed to serve.
32.	Courtney Freeman	My friends who have been raised in the Morongo Basin and wish to stay and live here long term are unable to find affordable housing due to the outrageous gap between the current average income and prices of Homes and Long Term Rentals because of the short supply (homes being removed from the market as STRs) and by being out bid by LLCs and corporations. Please take our future generations into consideration and stop the homes from being used as Businesses in our Rural Residential Areas.
33.	Evelyn Fugate	The folks that have multiple properties as STRs are clearly running a business in our neighborhoods.
34.	Frederick Fulmer	Please consider limiting any new STR in our community.
35.	Mary Gaffneyuniq	We need to save our communities from outside investors who's only purpose is greed people can't find places to live and work who enjoy our beautiful desert business can't find workers because of the problem this is causing enough is enough
36.	Mike Giblin	A substantial percentage of the short term renters do not respect the desert, nor do they respect the home owners who live near the rental properties.
37.	Kyle Gibson	Already tough enough to live out here, we don't need the homes bought and sold at insane prices.
38.	Krissie Gregory	It's getting out of hand with the STRs. The environment will suffer.
39.	Wendy Hadley	Given the large, rapid growth in STRs in our area, it should be very obvious to county officials that our community needs a pause on new STRs to properly assess, evaluate, and establish good regulations that will benefit our community, especially in our unincorporated areas of the county. Our county officials need to do their job, step up, and take this seriously!
40.	Brian Hammer Sr	Time to pause short term rentals, investigate the consequences of what has already occurred, and consider the true environmental impacts !
41.	Robert Haydon	Invest in neighborhoods and good neighbors - not STR's.
42.	Louise Henretty	We are surrounded by STRs. No neighbors.

43.	Coletta Herbold	<p>I work in the industry, because it is the only industry that pays over \$20 an hour, but I hate the industry because what it is doing to the area.</p> <p>I see the enormous water waste due to the constant filling and draining of "cowboy pools" just so someone can get a cute Instagram photo.</p> <p>I see the housing shortage getting worse due to homes being bought up in mass and being turned into an STVR.</p> <p>It's one thing for a local person to own and operate ONE STVR..but that is not what is happening. It's outside investment firms buying up everything and it needs to stop!</p> <p>"Somewhere in the Desert" is a brother and sister investment team that owns FORTY properties that are or will be STVRs. That is ridiculous.</p>
44.	David Hertel	<p>It feels like my quiet Joshua Tree residential neighborhood is being rapidly taken over by STRs. I have no objection to a reasonable amount of STRs, which are an important source of income, but there should be some limits. Especially concerning are units that allow large numbers of people and cars. These attract renters who want to party, talk loudly outside, play amplified music day and night, light campfires and turn on bright lights. This happens not just on weekends or special occasions but just about daily somewhere nearby. All of these activities are inappropriate for an area where sound carries very far, the roads are delicate, fire danger is high, rare wildlife gathers, and dark skies are valued. It is annoying to the point where people are moving away because of the STR issues, which then potentially makes the problem worse. Thankfully the new mechanisms for reporting problems and assessing fines are having some effect, but I think it's important to hit the pause button and evaluate where everything is going and what we want the end game to be. At some point a lack of sufficient permanent neighbors alone will be enough to drive remaining long term residents away.</p>
45.	Ben Holstrom	<p>Those who live in our area need protection against the invasion of the weekend rentals. Our residents need affordable homes.</p>
46.	Paul Ivanushka	<p>Please.Cap STR's. They are turning the desert into a shopping mall. Thank you for all that you do.</p>
47.	Jane Jarlsberg	<p>I have 3 strs next door in a row...and am housing a homeless couple for lack of long-term rentals!! Help us out here!!</p>

48.	Kathleen Jennings	This is a critical first step. Thank you for initiating this petition.
49.	Karen Joy	Please follow the lead of other counties and cities in California (Sonoma, Mono, Placer, North Lake Tahoe, Yucca Valley, Marin) and the nation and enact a moratorium on new Short Term Rentals. There is growing concern about the public health and safety of communities negatively impacted by rentals managed by investors without regard for the local community. It is a national problem that we hope you will consider responding to locally to protect our desert communities.
50.	Christina K	Locals have no where to go!
51.	joanne karl	Our community needs a balance between STR and LTR - there are NO LTR's available for people who live and work here.
52.	Mary Ann Kelly	Thanks to MBCA for helping all to embrace, but protect the area's unique character; an environment that is recognized by visitors and attracting new residents alike.
53.	Sarah Kennington	Our Morongo Basin communities residents know that a tipping point has been reached. The proliferation of STRs has overwhelmed housing needs for families and the work force. Time has come for the County to acknowledge and better understand the consequences of of the out-of-control growth and impacts of STRs. Help us manage this!
54.	Josephine Kim	Locals need affordable homes to purchase and affordable rentals
55.	Aidan Koch	As neighbors around me sell off their houses I worry that all of them will simply become short term rentals rather than stable housing for those needing it and seeking it. While I support people looking for good prices for their homes and locals who make a living off their short term rental units, the degradation of community and accountability is tangible. There need to be control measures and a plan in place on how these can be an asset to our community rather than submit to developers' dreams. A pause seems like a helpful way to re-calibrate towards the greater good of residents.
56.	Christopher Lawrence	Using residential homes as de facto hotels is flat out wrong. Why even bother with zoning when its not enforced. Renting out a bedroom or guest house is one thing but this has turned into a land/property grab that decimates worker housing.

57.	Cindy Leahy	I'm surrounded by them. I've had to sell our home and land, over Judge of Divorce. I am over 60 and have lost financial portfolio. I'm going to be homeless soon as there aren't affordable rentals, nor, affordable homes. H E L P us, we're your neighbors who rely on your logic and care of community. //
58.	Anne Marie Lear	In my small neighborhood of 24 homes, Ten of those homes are now STR and i expect two more to convert to STR in next two months. Ridiculous, our neighborhood has been destroyed and the constant harassment from corporate buyers is endless.
59.	Brian Leatart	So sick of the AirB&B business ruining our peace. The owners and management and renters could care less about us!!
60.	Sara Lee	Not a day goes by where I don't see on local Morongo Basin FB groups a mom with several kids who is on the verge of being homeless or having to move back in with parents or move out of state because their rental is being sold. Dawn Rowe needs to be advocating for these people NOW.
61.	Robyn Lewis	There needs to be of a pause there needs to be a limit too .
62.	Tamara Lund	There are to many STR in our community
63.	David Marshall	STRs are an incompatible land use. The County is allowing what are essentially hotels in the middle of single family, rural living neighborhood. Some streets such as Rockwood now have half the homes being permitted as STRs. It has gotten out of hand. On Onaga, the nightly rates for some of the new STRs are over \$1,000 per night, pushing up property prices and making the community unaffordable to anyone looking to purchase a home for year round use -- much less rent in the neighborhood. A better option for accommodating the increase in tourism would be to build a few hotels along Highway 62.
64.	Alyssa Martinez	We have a home that we have had for five years that we do use for STR when we are not using it. We also have relatives that have lived in Yucca Valley for 40 years. We love all our neighbors and the great communities of Yucca Valley and Joshua Tree. We are devastated what investors are doing to these communities We absolutely support this motion to stop more STRs and to limit the amount one can own. We must support the community
65.	Robin Maxwell	As an ex-STR owner, I heartily agree that there must be rules governing these units. They are out of control and ruining neighborhoods.
66.	Barry Mayron	The residential character of neighborhoods is being destroyed when there are such high concentrations of short term rentals in certain areas.

67.	Victoria McConnell	I support a pause in STR's until we fully understand their impact and establish guidelines for further growth. Personally, my neighborhood is quickly becoming a business district instead of a community.
68.	Arch McCulloch	STRs are driving long term renters out of town, and creating noise and light pollution that impacts neighbors. We need a pause on new permits until a fair method of limiting numbers can be determined.
69.	Nelda McCulloch	Not enough housing for worker bees and therefore decreased school enrollment.
70.	Wendy McEntyre	It's out of control!!! How much money has the county made from collecting taxes on STR'S?
71.	Donovan McKeever	I feel like I don't even know who my neighbors are anymore. There's no sense of community in my home town when all the houses around me are for tourists. STRs misplaces locals into homelessness and strips them of housing opportunities. It's time to put an end to it.
72.	Aimee McKeever	I fear for the safety of our youth! There is a STR 1 street up from Friendly Hills Elementary school with a roof deck where being on the deck you can see straight to the playground at the elementary school. The sense of being a neighborhood has diminished greatly. I don't know who my neighbors are and I don't know who are the STRs.
73.	Judith McKillop	I bought in a all residential neighborhood as a full time resident for 38 years now I'm surrounded by obnoxious air bnb's. Gone is my peace and quiet. Thinking of getting out of Big Bear. We don't even have enough employees at our schools
74.	Alicia Mendez	Thank you for your consideration. It is imperative that better regulations are created and enforced for short term rentals in the area. Families who have lived in the area for generations are being priced out of their rentals and forced to unexpected relocate because of the lack of regulations. First time home buyers are struggling to find homes so they can settle and give back to this community because of the competition of cash offers from those who only want to turn homes into short term rentals. While there is a place a for short-term rentals, it is not sustainable for the majority of housing to in the area to become one. Please consider our requests.
75.	David Miller	Enough is enough. We really need to STOP and deeply consider all the unintended consequences growing out of our lack of attention to this land grab.
76.	Lisa Lynn Morgan	We are already over 1000 STL properties. STOP the madness. Our surrounding communities have limeted theirs to half as many. There are not enough resources to cover policing what we already have.

77.	Karen Morton	Based on my own experience, I thought the STRs had reached a saturation point 3 years ago. I believe that we are certainly there now. More full time rentals for residents are desperately needed rather than more vacation homes.
78.	Cindy Murphy	Stop increasing STR's and stop changing the zoneing we use to be able to have horses, they changed the zoneing so now we can't they just want duplexes and triplexes in my area.
79.	Clifford Novey	Please help local residents! We have no affordable rentals and wish to live and serve in the community- there has to be some balance brought to bear on this situation! Thank you.
80.	Deborah O'Key	It is also having a negative affect on the ecology of the area. Desert tortoises according to the Joshua tree national Park biologist they are endangered. The way people speed and don't pay attention on the dirt roads are a death trap for desert tortoises and other wildlife. Loud party noises also are disruptive to the wildlife. It seems that people from the city are scared of the dark and has a negative affect on our night skies and also the wildlife.
81.	Linda Perry	California is in a serious water shortage! Building and vacation rental applications should be put on hold! I also urge the members of the board of supervisors to reveal any ownership interests they have in the vacation rental market in Joshua Tree and the surrounding areas.
82.	Rand Potter	If something is not done there will be alot of empty houses and alot of long time residents going out of state to survive. The bones of our community, it's local people who make it work everyday so that outsiders can come and enjoy our community for a visit take us out of the equation and what do you have?
83.	Deborah Powell	I believe the overwhelming influx of the STRs are ruining our town it's a fad by out of towners that will soon fade away. Then what? Worse unemployment, empty houses, no more tourists to cater to. And our local economy takes a nose dive.
84.	Molly Quinones	My own neighborhood has over 30% saturation of short term rentals. We have dirt roads and no street lights. Due to the high influx of STRs we are losing our night skies and suffering damage to our roads with no compensation for repairs from the STR owners. It is a huge problem for us!!
85.	Ruth Rieman	You/we cannot fix the problem until we have fully identified the problems and significant impacts STRs have on our communities. Please act responsibly and listen to the current fulltime residents (owners and renters). This from a 44 year resident.

86.	Jules Russ	The delicate ecological balance of the high desert and it's permanent residents can't sustain this out of control greed for the high desert experience. The whole situation is turning that area of the Mojave into a sad parody of itself and needs to be capped immediately.
87.	Helga Russell	Please pause new str permits. There are 5 within walking distance of my house and I am exhausted from ME having to patrol them for YOU. I don't want the responsibility on ME to patrol 5 str. They are so saturated near my home that inoften can't even tell which str is responsible for the loud noise, or excessive street parking. Please take OUR needs into account too, not simply str owner rights.
88.	Cher Schriefer	Short term renters neither appreciate nor care for our High Desert environment and year-round residents, be they flora, fauna, or human. This is not where Spring break behavior belongs. Nature requires protection.
89.	Timothy Scott	This housing crisis caused by unchecked STR development has unnecessarily exasperated the economic effects from the pandemic. STR expansion needs to stop so that our communities can recover.
90.	Rebecca Shaffer	We need to concentrate on finding a solution that benefits both sides of this issue. Residents should not be pushed out because of an over saturation of STR's. We also need to find a solution for the lack of accommodations for tourists. This is also causing a labor shortage both here in the Morongo Basin and in the Coachella Valley.
91.	Diana Shay Diehl	Our entire Morongo Basin is under stress for those who make this our permanent home. Contractor services, food, most anything we need as a community is being sucked up from vacation rental owners who largely do not live here – at all. It is stressing our families in particular who are being displaced as more homes are going for pleasure vs sustained living. Our local high school, alone, has roughly 10% of the student population being homeless. HOMELESS kids!?? That equates to about 140 students, 140 too many – largely due to their rental homes being sold out from under them and they cannot afford nor find suitable housing for the entire family. Add to that, this high school is ranked on the bottom 50% of all high schools in California. No wonder when where to eat and sleep becomes more important than learning something to help a student move forward in their own lives. What is this basin becoming? In my 38 years living here, never have I seen such selfish disregard for our own... We don't need more city people taking up our space. We need viable homes for those who actually live, work, raise families, or retire here. May all those who can lay their heads on a pillow in their own home,

		while the other multiple homes they own rake in the vacationers' dough, sleep well....140-ish kids sure won't.
92.	Shira Shimoni	Please pause the STRs in Joshua Tree.
93.	Kimberly Sikora	The lack of affordable housing in our area has had an immediate, extreme, and deeply inequitable affect ion the children and families my education program serves. Our area is already underserved when it comes to resources, employment and funding, and Airbnb has created a dire housing shortage where one should not exist, not to mention the impacts of overtourism on our endangered desert flora and fauna. Do not turn a blind eye to our community's needs.
94.	Candice Silsby	Out of control!
95.	Teri Steenberg	Joshua Tree is being overrun with STR and we are currently surrounded by them. Every weekend we have outsiders coming into our little community, using up our water, harming our fragile environment, making noise, etc. Please stop issuing permits. Residents cannot find rental housing, or reasonably priced houses to purchase. The average citizen cannot afford \$1,000,000 for a home. The insanity needs to stop.
96.	Simone Steger	The plants in the desert take years to grow and establish. One person or company buying a lot demolishes those plants in one day. It is devastating to watch and see a house built on a lot not for a local family but for a STR.
97.	drayton stephenson	Stop ll new permits till we can access the damage already done to the housing in the Mojave Desert.
98.	Gary Stiler	We have shallow wells that are being tapped by STRs permitted for 12 people. How long will our water last? Is our groundwater being contaminated by old, overburdened septic systems? It's time to pause the growth and examine the impacts!
99.	Bethany Stoltzfus	Please consider this. So important to our dying communities
100.	Joshua Stonebrakers	Please stop permits for STRs In unincorporated San Bernardino County.
101.	Margaret Strachan	The proliferation of STRs has also disturbed local land use in violation of the general plan.
102.	Tobi Taboada	this has caused tremendous hardship for looking for ordinary rental housing; and unchecked, a level of selfish interest not seen here in my time in the Basin, 16 years.
103.	Joan Taylor	As a property owner In the Morongo Basin, I urger you to enact a "pause" for the good of our communities. Thank you.

104.	Kimberlee Toves	My neighborhood has turned into a hotel with no hotel staff to manage it or help ensure guests are following the rules. I wish for my children to have neighborhood friends on our street to play with, not a steady flow of strangers disturbing most of their night,Äôs sleep. Please help take action and do something.
105.	Karen Tracy	Lack of affordable housing for our workforce crushes a vital element of our economic trajectory. Give us some wiggle room to recover.
106.	Laraine Turk	The Supervisors must immediately take the first step in remedying the growing harm to Morongo Basin renters and residents from the recent avalanche of STRs. Simply pausing approval of any new STRs in unincorporated areas of the County, which are mostly in the Morongo Basin, is a start. The Supervisors should then direct County staff to do a thorough assessment of the problems that such uncontrolled STR growth has caused as a basis for a new regulatory approach.
107.	Stephanie Varga	We need to stop out of town real estate speculators from profiteering at the expense of the local community.
108.	Stephanie Weigel	The dark night skies and quiet desert vistas that residents value have been hugely impacted by newly built and converted rentals with bright lights and nightly parties. These activities have greatly changed the character of neighborhoods and the places we call home, and resulted in the lack of reasonable and affordable housing for many. A thoughtful pause can allow an assessment and re-evaluation of how we choose to grow into a future that respects all.
109.	Anne Westenhaver	I am one of the few who has not sold out to the STRs in my neighborhood.
110.	Sharon Wilbraham	We live in a ski resort town and are living the negative results of short term rentals. The ski resort and local businesses are understaffed because there is no affordable housing left for employees due to the proliferation of short term rentals. There needs to be a balance.

111.	Steve Wilson	I applaud the MBCA for organizing to protect their area, community, resources and environment. San Bernardino County comprises several such communities, all with similar issues and concerns when it comes to managing impacts of increased population and visitation. I live in the incorporated Big Bear Lake, but our community is part of the larger Big Bear valley, and we share the same concerns. The upcoming Citizens Initiative to Limit STRs in Big Bear Lake will place increased demand on the unincorporated parts of the community, and SB County needs to be proactive to prevent the immediate surge of STR invasion that will certainly result.
112.	Lisa Windes	Thank you MBCA for tackling this problem.
113.	Eric Windes	Please keep Picasso out as well; they're repackaged time shares.
114.	Clarissa Winslow	Unfortunately too much litter, noise, emptying of supermarket shelves, and drain on emergency services from tourists.
115.	robert wold	I support MBCA's mission to promote the health, diversity and stability of our precious high desert community.
116.	Sherry Wood	Too many settlers that have contributed to our town are being squeezed out. Making for many homeless people. Plus the disrespect short term rentals brings. They have loud parties, trashing our peace and deserts. They come here not knowing our open fire restrictions.
117.	Valeree Woodard	Please suspend permits on STRs I want my neighborhood back!

SECTION II – Signatures by County if provided

PETITION SIGNERS FROM SAN BERNARDINO COUNTY (self-reported) = 335

	Last Name	Full Name	City	County	State
1.	abbott	nate abbott	joshua tree	San Bernardino	CA
