

2025 Operating Grant Call for Applications

Manitoba Lung Association is now accepting proposals for the 2025 Operating Grant. We're looking to support innovative projects that improve lung health and air quality for Manitobans.

Priority Areas

We're especially interested in research related to:

- Inhaled air quality (e.g., wildfire smoke, traffic, industrial pollution, tobacco, cannabis, vaping)
- Interdisciplinary teams and clinical partnerships
- Projects that include knowledge users, caregivers, or patients
- Pilot studies, new projects or new studies linked to existing projects

Deadline to apply: July 16, 2025 at 4:00 p.m. CDT

Apply Online

Visit our website for full guidelines and the application form.

Funding Details

- Up to \$15,000 per grant
- Four grants available
- One-year term, non-renewable
