Focused on:

Advocating for Social Services

McHenry County has a rapidly growing need for increased mental health, domestic violence, veterans, seniors & substance abuse services. We owe it to our community to make sure help is there when they need us most.

Championing Public Education

Strong schools build strong communities. Our teachers deserve the resources and respect they have earned, and our students deserve a quality education in a safe environment that allows them to thrive.

Housing Affordability

When we invest in safe affordable housing we're reducing county poverty, creating local jobs, keeping our young family members here, and increasing tax revenue in the county.

Protecting our Natural Resources

As the county continues to grow, we need to exhibit foresight in what we're building, and what we're building on. Our county growth should be thoughtful and sustainable so we're not jeopardizing our most precious resources.

Full Transparency & Accessibility

We're at our best when everyone has a seat at the table and a chance to shape the future of our county.

Strong leadership starts with listening. Please take a moment to complete this brief survey and tell me how you and your family feel about our district and county.

Together, we can shape what comes next.
