 **Michael Kapp, DNC Member-elect**

Dear Michael,

The California Democratic Party Executive Board just voted to elect me to a four-year term to the Democratic National Committee. I was the third highest vote-getter in the state. **Thank you!**

I have met so many amazing people during the last six months, and this campaign was about them. A Young Democrat trying to start a new club chapter. The sweet couple fighting to protect seniors from financial abuse. Extraordinarily passionate door-knockers and phonebankers. Dedicated County Chairs trying to rebuild and expand the Party in some of the toughest areas of our State. The grassroots activists fighting against a torrent of outside money and influence in their district.

I am honored to be elected to represent California Democrats at our Party's highest level. But I am more proud that we won while running a positive and uplifting campaign built on core organizing skills and progressive values. We traveled the state, slept on couches and futons, and did whatever was necessary to meet voters and learn about our diverse issues. And by electing one of the youngest California DNC members ever, California Democrats made a strong statement that the voices of young people must be heard by our leaders.

This victory is yours, not mine. And I hope you'll join me right now for a victory party:

Tonight, we can celebrate. But the real work hasn't started. Together, I hope to bring your voice to the DNC and return us to a 50 state strategy, to a full-time national Party chair, to fight for a progressive platform that includes a ban on fracking and unlimited corporate money in politics, a \$15 minimum wage and true universal health care, and structural reforms so we can have a Party and a presidential primary of which we all can be proud.

If you can't make it tonight, I hope to see you tomorrow at General Session. We will be voting on many important ballot measures that will determine the future of our state.

Thank you for helping me bring about this victory! The larger fight continues.

With warm appreciation,

Michael Kapp
