

GET BEHIND THE PEOPLE AND NATURE OF OUR OUTBACK

- SIGN THE PETITION -

The remarkable people and beautiful nature of our Outback help make WA a special place. But government neglect means people are leaving and the land is going unmanaged. Feral animals, erosion of our precious soils and bushfires are all taking their toll on wildlife and people. With important decisions now being made about our Outback, we have an historic opportunity to turn this situation around.

Sign our petition and add your voice in support of WA's Outback. Every signature counts in helping persuade the government to do what it takes to keep our Outback great for the future. It's as simple as that.

"We call on Premier Colin Barnett to support the people and nature of our Outback through hands-on management of the land by: offering our pastoralists the support they need to bring their land back to health; establishing Indigenous ranger teams to help tackle uncontrolled fire, feral animals and noxious weeds; and unlocking the potential of carbon farming in the Outback."
