Our **NHS** is on life support

In the last six years, the NHS has gone from having a surplus to facing the worst financial crisis in its history.

NHS contracts worth millions of pounds have been handed to unaccountable private corporations – including those which have previously been criticised for poor-quality care. Staff morale is at an all time low due to pay cuts, attacks on junior doctors, privatisations and top-down re-structures.

THE NHS WAS MADE FOR ALL OF US

The national health service was created sixty years ago, free at the point of need, publicly-run and catering to all. Now, after cuts to funding and services, privatisations and top-down re-organisations and attacks on staff pay and conditions, the NHS is in crisis.

The National Health Service Bill, which has been introduced to Parliament by Labour's Margaret Greenwood MP, proposes to fully restore the NHS as an accountable public service by reversing 25 years of marketisation in the NHS, and preventing the dismantling of the NHS under the Health and Social Care Act 2012.

The Government is now pushing forward huge cuts and further privatisation under the banner of 'NHS Sustainability and Transformation Plans'. Support the National Health Service Bill and say yes to a publicly-owned and provided, properly funded health service, available to all who need it.

Say 'Yes' to your NHS

- Yes to comprehensive, universal health and social care, with parity of esteem for mental health.
- Yes to an NHS with enough doctors, nurses & other well-trained, properly rewarded staff.

- Yes to an NHS that's legally protected from 'trade' deals like TTIP.
- Yes to a re-nationalised NHS, which delivers publicly run, provided and properly funded healthcare.
