Question: What is the total list value of non-COVID vaccines that have expired in the past five years as of April 13 2022 ?

Reply: I am advised that the total list value/gross cost of non-COVID vaccines that have expired in the past five years as at 13 April 2022 is \$25,992,747. This figure is before the application of confidential rebates, which once applied would reduce it significantly.

Question: How much, if any, has been spent on PR or media communications around the health reforms, listed by recipient and amount ?

Reply: The attached table sets out the amount spent and recipient by the Department of the Prime Minister and Cabinet on PR or media communications for the health reforms for the 2020/21 financial year and for the 8 months to February 2022 for the current financial year. I am advised that all of the consultancy firms listed provided contractors for the purpose of providing PR, media and communications around the health reforms, none of which relate to communications for recruitment itself.
