

Nth Bellingen Record flood height 1870 11.5 Metres

152.895000000°E

152.900000000°E

Disclaimer.
 This map is based on a simple calculation of flood height minus elevation to give an approximate depth at a given location. Stormwater runoff has not been taken into account. The map should only be used to give a general idea of depths and inundation. The accuracy of the maps has not been calculated.
