

# CHOOSING HEATING OR EATING IS NO WAY TO LIVE

## We can't afford the Union!

Westminster rule is making people's lives harder as prices, inflation and bills soar. This government of liars and corrupt lawbreakers has failed to tackle the cost of living crisis and its effects on the poorest.

They have handed multi-billion pound Covid contracts to their cronies, while stepping up the assault on our living standards and underfunding our services.

Their disastrous policies have seen hundreds of thousands of people struggling to make ends meet. Now an unprecedented number of Scots face falling below the poverty line for the first time. If anyone has any lingering doubt

whether independence is a necessity or simply a desire, they need only to look at their rocketing energy bills.

It is a scandal that in such a wealthy society people have to make a choice between heating or food. We cannot afford the Union.

Wealth inequality is also soaring. The richest people in Scotland have 200 times as much wealth as the poorest; poverty continues to increase under UK rule. Independence can be an opportunity to change this, to build a society that tackles inequality and which can act with compassion not seeking out scapegoats to distract from their misrule.
