

Will you give Australian stem cell scientists the support they need to continue their ground-breaking work?

Yes, I will!

National
Stem Cell
Foundation
of Australia

EVERY DAY STEM CELLS SAVE LIVES

The NSCFA is an Australian Tax Office registered Health Promotion Charity dedicated to promoting the study and responsible use of stem cells to reduce the burden of disease.

The Foundation's objectives are:

Supporting research based around Stem Cells.

Building a community of people with a shared interest in stem cell science.

Providing the Australian public with objective, reliable information on both the potential and risks of stem cell medicine.

To achieve our objectives the Foundation currently:

Provides funding for two five-year research projects using stem cells to provide better solutions for Type 1 diabetes and severe heart trauma.

Through our Matched Funding Program provides four \$100,000 grants per year to support other projects.

Awards two annual Metcalf Prizes (worth \$50,000 each) to assist young stem cell researchers further their careers.

Provides travel grants to young Australian researchers to attend relevant conferences in Australia and overseas.

Sponsors conferences and public events to support stem cell science.

TO DONATE

The easiest way is to use the donation function
on our website:
stemcellfoundation.net.au

Alternatively you can send a cheque together with your contact details (so we can send a receipt) to:
