

# END THE HOUSING CRISIS

# **We are your** **National Union of Students**

We represent 4.5 million students and apprentices across 400 colleges and universities from every country in the UK.

As one of the world's oldest and largest student movements, we're fighting for a better education system for everyone.

Together, we achieve national change for students. NUS has been behind every big win for students, and at the forefront of change on issues affecting people across society – from championing LGBTQ+ rights, pushing to decolonise education and standing up against powerful corporate interests.

Together we've been a force for radical change since 1922, and our movement is still going strong. We won't rest until our education system is open to all, champions diversity, and allows every student to thrive.

**Join the  
movement:**
