

Why are 36,000 Te Whatu Ora nurses, midwives and health care assistants on strike?

For safe staffing

NZNO members are deeply concerned about patients continuing to pay the price for hospitals that are under-staffed and under-resourced. We're taking action for safe staffing not only for nurses and health workers but also for patients.

For fair pay

The Te Whatu Ora pay offer is well below the rate of inflation. This amounts to a pay cut. We're taking action to make sure nurses, midwives and HCAs are valued.
