

2025 Highlights

What we've won

\$1.6 million+ to preserve existing affordable housing for homeowners to keep their homes, by securing increased County and Town funds for home repairs and property tax assistance.

\$3 million saved in property taxes for longtime homeowners, thanks to 200+ property value appeals through the Orange County Property Tax Justice Coalition, co-organized by Justice United.

171 neighborhoods re-assessed for property value fairness, after our Orange County Property Tax Justice Coalition identified countywide racial disparities in the 2025 property revaluation that had shifted the property tax burden to historically Black neighborhoods by millions of dollars.

Immigrant Rights

Commitments to protect immigrants' full 4th Amendment rights (freedom from searches and seizures without a judicial warrant) from all four Orange County municipalities and the school systems.

Immigration attorney clinic provided free legal consultation to **75+ community members.**

Healthcare Access

Commitment from the Director of UNC Health Financial Assistance to remove barriers to access in the application process, and to hold same-day approval sessions.

Over 70 Financial Assistance applicants received one-to-one support, while identifying barriers to improve the application process.

Four Medicaid and Medicare enrollment and info sessions in Northern Orange.
