

THIS IS YOUR MPP AMY FEE

Amy Fee is making things worse in Ontario by:

- Planning to create a health care “Super Agency” that can force mergers and closures of hospitals, long-term care facilities, and community health centers, and allow privatization that will only benefit the rich.
- Planning to limit access to programs and services for children with autism.

AMY FEE
Progressive
Conservative

Amy Fee has already:

- Cut mental health care funding by \$335 million per year, leaving Ontarians in crisis.

- Restricted access to pharma care for young people, so families with sick kids are hit the hardest.
- Failed to improve rules that give long-term care workers only six minutes to get care residents ready for the day including waking up, washing, moisturizing, dressing, and going to the washroom.

We have a voice. Be part of the **POWER OF MANY**. Tell Amy Fee “Everyone deserves access to high-quality health care regardless of their age, where they live, and how much they earn.”

FACTS:

Ontario’s spending on public services per person is the lowest in Canada.

Ontario spends the lowest amount per person on health care in the entire country.

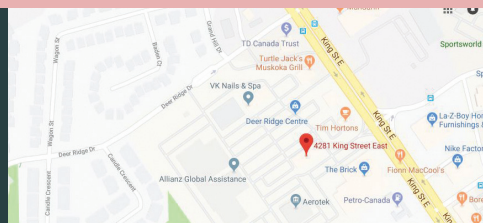

Ontario funds public hospitals at the lowest rate in Canada and has the fewest hospital beds per person of any province.

Let Amy Fee know that everyone needs good public health care. You can **visit** her at his office. You can **phone** her. You can **email** her.
