

# THIS IS YOUR PREMIER DOUG FORD

**DOUG FORD**  
Progressive  
Conservative

## Doug Ford is making things worse in Ontario by:

- Planning to create a health care “Super Agency” that can force mergers and closures of hospitals, long-term care facilities, and community health centers, and allow privatization that will only benefit the rich.
- Planning to limit access to programs and services for children with autism.

## Doug Ford has already:

- Cut mental health care funding by \$335 million per year, leaving Ontarians in crisis.
- Restricted access to pharma care for young people, so families with sick kids are hit the hardest.
- Failed to improve rules that give long-term care workers only six minutes to get care residents ready for the day including waking up, washing, moisturizing, dressing, and going to the washroom.

We have a voice. Be part of the **POWER OF MANY**. Tell Doug Ford “Everyone deserves access to high-quality health care regardless of their age, where they live, and how much they earn.”

## FACTS:

Ontario’s spending on public services per person is the lowest in Canada.

Ontario spends the lowest amount per person on health care in the entire country.

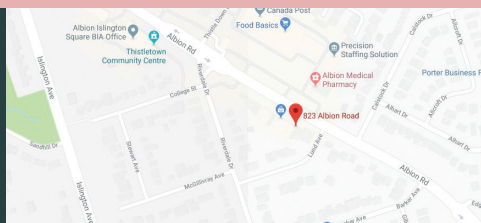

Ontario funds public hospitals at the lowest rate in Canada and has the fewest hospital beds per person of any province.

Let **Doug Ford** know everyone needs good public health care. You can **visit** him at his office. You can **phone** him. You can **email** him.

Your Premier, Doug Ford,  
has made it harder to  
get good health care  
in Ontario.

Phone him at 416-745-2859.

Tell the Premier that **YOU WILL REMEMBER** this in the  
next election. He should protect health care for all.

## WHAT TO TELL THE PREMIER:

- Tell him you are an Ontario voter.
- Tell him you support fully funding universal public health care.
- Tell him why public health care, pharma care, dental care, and long term care are important for your family.
- Tell him to reinstate public funding for mental health care.
- Tell him to increase access and supports for children with autism.
