

Candidate	Do you have any further comments for the Long Bay Okura Great Park Society Survey?
Gregg Walden	
Alezix Heneti	Yes thank you for your invite. As a Mayoral candidate and a councillor candidate and a local board member candidate I get to see and understand all 3 perspectives needs and wants.
Victoria Short	
John Watson	
Jake Law	As an energetic, fresh, and environment focused candidate, I am looking forward to attending this event! Thank you.
Julia Parfitt	I have over many years consistently supported protection of the Long Bay Regional Reserve .My earliest decision was to not support the extension of the Auckland Metropolitan limits to Vaughans Road. Regrettably that motion before the North Shore City Council was lost by one vote. It was an important lesson for me and all other decisions made that I have supported since then have been approved including the creation of the marine reserve, purchase of the 34 hectares of land at Piripiri Point and successfully advocating at the time for the ARC to purchase land to legalise the park's entry off Beach Road, ensuring that the Long Bay Structure Plan was underpinned with environmental standards and included a wetland that addressed not only the subdivision's needs but those of the existing Glenvar catchment, using a development agreement and subdivision reserve contributions due to acquire the bulk of the heritage zoned land for a buffer and 5 neighbourhood reserves by North Shore City Council just before the establishment of Auckland Council. I believe I have honoured a commitment I made to the late David Gatward ,a key early member of your society ,to do everything possible to protect and extend the park and I will continue to do so. . As I said to him at the time sometimes you get only one opportunity to protect the land and that's before subdivision. Thankfully we have had a number of opportunities and the people in place to make them happen.
Sylvia Yang	
Tony Corbett	No.
Frank Sun	No
Nathan Pont	The East Coast Bays has a fantastic coastal lifestyle. I believe it is so important that we protect the Regional Park, surrounding beaches and facilities. That is why I have been on the Long Bay Okura Great Park Society Committee for the past five years. I want to support the local community groups who improve our beaches and reserves and Regional Park. I also will advocate for better access to our Regional Park, reserves, beaches and Hauraki Gulf for all users from boaties to families and walkers.
Alexis	
John Davies	For Council to cope with today's environmental and societal issues, there is a very hard balancing act to meet. Whilst a strong Council can probably save a lot of money, the pent up pressure for spending in vital legislated areas of concern means that no community will get everything it wants, but all communities must still be represented and be engaged in how Council can best spend a necessarily limited budget to meet the needs of Long Bay, the Bays, Hibiscus and Bays, Albany, Tāmaki Makaurau Auckland and ultimately Aotearoa New Zealand.
Paul Magill	Well I want the top of Glenvar Road and East Coast Road fixed NOW. We need temporary traffic lights in, NEXT WEEK. Not some mythical on and off project that may take decades. We need traffic lights now there, so people feel safe and stop accidents happening. I believe this will save at least 1 life. It is no point doing it after someone dies.
Wayne Walker	
Steve Piner	
Toby Malcolm	Thank you for the opportunity to answer your questions, and if elected I look forward to keeping an open line of communication with community groups such as the LGOGPS.
