

Reverse the cuts to education now! **JESSICA BELL**

MPP for University—Rosedale

To the Legislative Assembly of Ontario:

WHEREAS the Ford government has removed over \$6.3 billion from Ontario’s public education system and is cutting a further \$900 million, leading to larger class sizes, fewer educators, and reduced supports for students;

WHEREAS these cuts are resulting in reduced programming, fewer special education supports, and worsening conditions for students across Ontario schools;

WHEREAS the removal of class size caps and ongoing layoffs of teachers and education workers are undermining student learning, safety, and well-being;

WHEREAS the government is centralizing decision-making in Queen’s Park, removing power from elected school board trustees and leaving parents without a meaningful voice in their children’s education;

Therefore we the undersigned petition the Legislative Assembly as follows:

To reverse cuts to public education, restore funding for student supports, protect local decision-making, and ensure every child has access to a safe, well-resourced public school.
