**Oregon Physicians for Social Responsibility Names
Dr. Vincent Intondi as New Executive Director**

PORTLAND, OR – Sept. 22, 2025 — Oregon PSR, an organization dedicated to protecting human life by striving to combat climate change, end the nuclear threat, promote peace, and advance justice, is thrilled to announce the appointment of Dr. Vincent Intondi as its new Executive Director, effective September 22.

Vincent Intondi brings over twenty years of experience in the fields of nuclear disarmament and environmental justice to Oregon PSR. “From starting as an organizer, to my first trip to Hiroshima and Nagasaki, to a career in academia, I feel all my experiences have led to this position. I am beyond excited to start this next chapter with an organization that has 45 years of making Oregon, and indeed the world, a more just and equal place while working to combat the biggest threats to our civilization: climate change and nuclear weapons.”

Dr. Ann Turner, Oregon PSR Co-Board President stated, “As a professor, Dr. Intondi was loved by his students who continue to reach out to him for advice and counsel. We are excited that he will use this expertise to reach out to our younger generation to grow and diversify our membership. Whether the issue is nuclear weapons or climate change, Dr. Intondi’s message is the importance of “preventing what we cannot cure.” Please join us in welcoming Vincent Intondi to Oregon PSR!”

Regna Merritt, Oregon PSR Co-Board President said, “There has never been a more important time to ‘build the good and stop the bad.’ As advocates for public health working with allied organizations and frontline communities, we use science-based evidence to build power and drive systemic change. We are thrilled to welcome Dr. Intondi, who brings both organizing skills and academic expertise to serve Oregon communities and the nation.”
