

**NO VACCINE
PASSPORTS**

We DEMAND our FREEDOM!

In April of this year, Boris Johnson's Conservative Government reassured the British people that Covid 'vaccine passports' would NOT be introduced for use in pubs, restaurants and other public places. Despite these reassurances, Boris Johnson and the Government have now decided to move forward with a vaccine passport scheme.

All those who have the NHS 'track and trace' app on their phone will now be asked to use this as a vaccine passport in order to gain service in bars, pubs, restaurants and other businesses.

Despite the Covid jab not yet being mandatory, this vaccine passport system will now be used as a way to force the jab upon those who do not wish to take it. And for those who continue to hold out, this system will create a two tier society where those who comply with the government's wishes have more rights than those who do not.

This is nothing short of tyranny and effectively allows the government to take away the rights of businesses and the general public to decide what they put into their own body and who they choose to associate with.

This will not only restrict our freedoms, but will likely have a huge negative impact on the livelihoods of many people who own businesses. The British high street has already been decimated, with one in five businesses closing since the start of the 'pandemic'.

Back in March of 2020 they assured us it was just two weeks to flatten the curve, but now here we are, well over a year later and our freedoms are still being curtailed by a government that grants itself more and more powers with each passing month. If you are sick of seeing your rights being eroded and if you wish to fight back against this tyranny, join like minded people and become part of the resistance!
