

# **LOVE** your **COUNTRY**

# **LOVE** the **COUNTRYSIDE**

**PROTECT** our native species

**STOP** building on the green belt

**BAN** kosher & halal slaughter

Our beautiful countryside is part of our national inheritance. Our green spaces are areas of outstanding natural beauty and we believe that they should be protected and preserved for future generations. We believe that a strong connection to the natural world is integral to our physical and mental health. As such, we would halt any further building on undeveloped green spaces and ensure the protection of our countryside.

As Britain's population has increased dramatically, the demand for housing and new amenities has caused our green spaces to disappear at an alarming rate. This has had a huge effect on native species, with many breeds of animal and bird now being added to the endangered list. We would close our borders and put a stop to further immigration into the UK.

Britain is a nation of animal lovers. As such, we would ban all unnecessary testing on live animals and put a stop to vivisection and other cruel practices. We would completely ban all non-stunned animal slaughter, including halal and kosher slaughter. The importation of such ritualistically slaughtered meat would also be banned.

The rapid rise in the UK's population has also led to a rise in factory farming. We would take measures in order to reduce this method of farming and would promote and subsidise traditional and natural farming methods. We would also encourage food self-sufficiency to reduce our nation's reliance on food imports.

Patriotic Alternative is a community-based group and, as nationalists, we believe that conservationism and the love of our nation go hand-in-hand. We also believe in leading by example, and our activists can regularly be found carrying out litter picks and clean-ups all over the country as part of our community-based approach to local politics. If you love your nation, why not join us and get involved?
