

**POLITICIANS
LINE THEIR OWN
POCKETS**

**AS BRITS
GO HUNGRY**

On April 1st 2022 Members of Parliament received a pay rise of £2,212, taking their already bloated salaries from £81,932 to £84,144! This comes at a time when the same politicians are telling regular working families to tighten their belts and record numbers of British people are being forced to rely on food banks in order to feed themselves.

But politicians don't just use taxpayers' money to line their own pockets, they are also more than happy to spend it on a range of initiatives that do not benefit the British people in any way.

Each year Britain spends £14.5 billion on foreign aid - handing tens of millions of pounds to countries like India which have their own space programmes and can afford nuclear weapons. On top of this, Britain has already pledged £1.3 billion in aid to the Ukraine - not only diverting money away from struggling British families but also putting Britain into conflict with a nuclear armed superpower.

But it doesn't end there - illegal migrants caught crossing the channel are being housed in hotels up and down the country at the cost of £4.7 million a day! That's another £1.7 billion a year from the taxpayers' pocket. And this is just the tip of the iceberg. Billions more are wasted each year on politically correct projects, red tape and cushy jobs for the friends and families of those in power.

The out-of-touch politicians have shown a total disregard for the needs of the British people and treat families suffering hardship with complete contempt. The politicians created this economic mess - they are responsible, and when they say "we're all in this together", they are LYING! The politicians are in it for themselves and are happy to let British people suffer as they squander billions on foreign aid and illegal immigrants. ENOUGH IS ENOUGH - CHARITY BEGINS AT HOME!
