# **STORY HOUR**

**PROTECT OUR CHILDREN**

Drag queen story hour is yet another attempt to sexualise children and to introduce them to material of a sexually charged nature. This push to introduce children to 'drag queens' goes hand-in-hand with the aggressive push to ensure that transgender propaganda is forced down children's throats in schools and other educational institutions.

There is clearly a concerted effort from the Marxist establishment to ensure that children are taught about sexual matters from an ever younger age. Shockingly, more than 240 primary schools in the UK are now offering 'sex education' classes covering topics such as 'self-stimulation' to children as young as SIX!

Subjecting children to these 'lessons' and forcing them through 'LGBT indoctrination sessions' is nothing short of child abuse. Children should NOT be exposed to material of a sexual nature as they are unable to comprehend such things. It is no coincidence that there has been a shocking rise in child-on-child sexual assaults - with ITV Wales reporting an increase of over 500% in cases of children being abused by their peers.

We believe that children should be shielded from sexual material and that their innocence should be protected. Children's education should be built around ensuring that they are numerate, literate and that they grow in confidence. The education of our children should not be hijacked by Marxist extremists who wish to use schools and libraries as a platform to push sexual ideologies on innocent and impressionable young minds.

We urge everyone to contact both their local library and local authority and complain about these events. What's more, ensure people within your community know what is happening and urge them to complain too. Together, we can ensure that our children are protected and that their innocent minds are kept free of material that will do them harm.
